SELL THE BIG SILSBY

Firemen Think a Chemical the Proper Thing.

NO NEED FOR THE ENGINE

The Conjunction of the High and Low Service Will Throw Water Over Any Building in Town—They Hate to See It Go, But Think a Babcock Would Be Better.

The handsome Silsby engine at the fire station has so long been the pride and joy of the city that to sell it seems almost parting with a tried and true friend, but the steady march of progress cannot be denied, and the efficacy of the department would be increased if another piece of apparatus occupied the place it has filled so well.

The first intimation that the department could dispense with the engine dawned upon interested parties when Superintendent Phil Morley announced the ability of the water works to provide pressure for streams that would cover any building in town. If this be true, and there seems no reason to doubt the official's word, why should not the city sell the engine, and purchase a Babcock on wheels? In view of the Silsby, and the excellent manner in which it has always behaved, the thought almost appalled those who heard it expressed, but time has been wearing out the sentiment, and the hard, practical side has appeared long enough to let all concerned realize the importance of the move. When questioned about the matter today Chief Adam said:

"I do not want to be understood as in any way underrating the value of the engine, for it has stood us in good stead on many occasions when without it the damage would have been great. We could not have handled the Dresden or Diamond fires so well had it not been for the engine, because we would not have had the pressure. But now the pressure is so much greater than at that time that we can afford, I think, to get along without the engine. If the water works can throw water to the height and in such quantity as the officials say, and I believe they can, there is no need of the engine. It is suggested that the engine be replaced with a Babcock on wheels, one of those two 20 gallon tank arrangements, with a reel mounted at the top. It would not cost much, but it would answer a need in the department. These extinguishers are charged much after the fashion of the small ones we have now, except they are much more powerful, and can be used with effect on large fires. They do not damage goods as water does, and seldom, if ever, fail to do the work expected. I have heard marvelous stories of their work, and have seen the fluid put on clothing without leaving a spot. The machine is mounted on wheels and would not occupy as much space as the Silsby at the station. If council can sell the engine for anything like its value, and they ought to get a good price out of it, for it has been tenderly cared for, and the water works can give the required pressure, it would be better to have a chemical."

This opinion is held by other members of the department who think Wellsville might buy the engine. They have scarcely any protection against fire, and if a conflagration should rage there they would have to call on Liverpool for help. With the engine reinforcing the pumps at the water station they could take care of their own fires, although Liverpool would always be in readiness to help. Engineer Kurfman has cared for the big machine as well as if it was his own property, and it looks as well today as when it was purchased. There would, of course, be a falling off in the purchase price, but enough would be left to buy a Babcock. The change would not throw the faithful engineer out of a position, for he would have his time taken up by the new purchase.

"Let Wellsville have the engine for a nominal price and the town will buy," said a business man. "They must have some fire protection down there soon, and now that they have spurned the half-expressed offer of this place to give them water by buying their own pumps they may want something that will keep them out of the hole. As I understand the insurance men, it don't make much difference in the rate whether there is an engine here or not, and it might change things a little if the city had a Babcock. Council will do what's right if they can sell the engine for anything like a good price."

In discussing the matter further Chief Adam said that he did not favor the sale of the engine unless there was good cause for it being considered

useless, now that the pressure of water would do its work. If half a dozen streams, or more than the two usually used at a fire, can be secured without the engine the Babcock would be a better part of the equipment of central station than the Silsby.

READY FOR THE RACE.

The Boys Are Now Spreading From Steubenville.

The road race from Steubenville to the quarters of the C. C. C. C. in this city this afternoon promises to be the prettiest contest of its kind ever seen in the city.

The riders were qualified last night, and every man was in good spirits when they gathered at the room this morning preparatory to taking the car for Wellsville. Some have been training hard, and proudly displayed the fine muscles produced by their work. They will be under these numbers:

Reck	No. 7
Kerr	" 4
Holtzman	" 14
King	" 5
York	" 8
Jewell	" 9
Bott	" 10
Laughlin	" 12
Deidrick	" 15

The race, as before, will be from the scratch, every rider with one foot on the ground when the start is made. The race is through the same country as the race of a month ago, and because many of the riders have been over the course, and some good time has been made it is thought there will be some close finishes. The danger of accidents is lessened because the boys have picked the easiest places in the road to ride and know every inch of the ground. There was some betting last night, the money as a rule being against time, the phenomenal performance of last month making some of the sports believe there can be no touching it again. Fifth street from Jefferson to the scratch will be well watched by the police, and the crowd are asked to keep back and leave an open space in the streets. Some one may get hurt if this warning is disregarded.

TRAPPE IS HERE.

The Bold Cleveland Crack Will Ride on Monday.

Trappe, the Cleveland wheelman who has a wicked habit of winning races when all the cracks are entered, arrived in the city last night and was shown around by Will Taylor, president of the club, and the men against whom he will ride, Irons and Hale. He was in Canada when the telegrams from here reached Cleveland, and he could not get away until yesterday afternoon. The story of his being suspended amounts to nothing more than an error. He was disqualified at the Dayton track, for the day, and the correspondent who sent out the news did not know the difference between disqualification for a day and suspension for a season as interpreted by the men who know L. A. W. law. He will ride on Monday in the races.

The races at the park will begin at 2 o'clock on Monday afternoon, and the best boys of the C. C. C. C. will be there to help the cracks along or beat them if they can.

A BAD YEAR.

Enormous Destruction of Property on the River.

The river editor of the Pittsburg Chronicle Telegraph makes this timely observation:

"The destruction of marine property along the Ohio river has been something enormous during the year. There have been thousands of dollars worth of coal and barges lost, and numerous small boats sunk. The heaviest loss has fallen upon the mail line, they having lost the steamers State of Missouri and Big Sandy, the former by water and the latter by fire. Several lives have been lost, and altogether, it has been a poor year in steamboating."

Now, why in the world did he forget the beautiful Iron Queen, which died so hard a few months ago?

GETTING WARM.

The Judicial Contest Is Growing Decidedly Interesting.

If the following special from Youngstown is founded on fact, the judicial fight grows in interest:

"Some Republicans assert that Judge Johnston is in the race, not that he expects to land the nomination, but at the proper time will swing the delegation in the convention for Burrows. If Judge Johnston desires the delegation from Mahoning county for himself he will get it solid, but should he desert it to help another candidate, and this is the view taken of his candidacy by the supporters of Judge Robinson, and he may have trouble in handling it and delivering the votes."

THE NEXT PRESIDENT

He Came to Liverpool on a Morning Train.

GOV. WM. MCKINLEY LOOKS WELL

The Hand of Time Has Touched Him Lightly Since He Was Last Here, and He Looks the Embodiment of Manly Strength and Intellectual Vigor.

William McKinley, the present governor of Ohio and the next president of the United States, arrived in the city this morning, and, in company with Mrs. McKinley, is at the residence of Colonel Taylor on Sixth street.

The governor looks a few years older than when he last visited East Liverpool, but his step has not lost elasticity nor his face the bloom of health. He seems to be every whit as young in action as at any time during the years he has been known to Liverpool people. The honors that have been showered upon him for his bold stand in defense of America and her industries have not changed his manner, and the illustrious Governor McKinley is not one bit more pompous than was the hard working Major McKinley, member of congress. There was a smile on the governor's face as he stepped from the car, and the smile broadened into a pleasing expression as he shook hands with the friends awaiting his arrival. He looked the picture of manly strength and intellectual vigor as he moved toward the carriage, and no one seeing him at that moment would deny for an instant his ability to fill the highest office in the nation with honor to himself and justice to its 70,000,000 of people.

The governor is accompanied by Mrs. McKinley, who has been ill, but is now very much improved. They went from Columbus to Pittsburg over the Panhandle, and were brought here this morning in a special car. He will see the racers finish this afternoon, and will watch the boys as they spin around the track on Monday. The length of the visit has not yet been decided, but will extend through next week.

SEVERAL PAID.

And Others Gave Security For Their Fines—One New Victim.

William Timmons and Frank Dickey paid Mayor Gilbert \$5.60 each for the horse racing they indulged in on lower Fourth street Thursday night.

Charles Wilson for fighting with John Johnson paid \$6.60 today.

C. A. Tucker appeared at city hall and pleaded guilty to assaulting Nelson Cornell. He was fined \$6.60. Cornell has not yet answered to the charge of fighting.

Charles Bashor, who was arrested for drunkenness, is still in jail today.

Tim O'Toole, an aged spectacle seller of Salineville, was drunk on Second street when Constable Lyon got him this morning. He left four pairs of spectacles as security for a fine of \$5.60.

TO PLAY BALL.

Three Clubs Go Out of Town This Afternoon.

The East End Gyms left this afternoon for Empire, where they will play ball. Farish and Shaffer will be the battery. They announce that Purinton, who was mentioned yesterday as one of the battery, is not in it.

The Gyms were delayed by an accident at the Thompson pottery which disabled their cab. A wheel was torn off by a street car.

The Burford pottery team went to New Cumberland today to play ball. The battery for Burford's are McShane and Davis.

The Oakdale club went to Wellsville this afternoon to play ball. Their backer Mr. Thomas Lounds, accompanied them.

READY FOR BUSINESS.

The Lawyers Will All Be at Work Monday.

The vacation of the Southern Columbian Bar association ends tonight, and all the offices will be open on Monday. Almost all the lawyers are home from their various trips, and are ready for another year of work. Business will be good next week, and the justices, courts promise to be crowded with business for the city is no more peaceful in summer than in winter, and to dam the flow means the accumulation of cases.

A DOZEN SHOTS.

How They Frightened a Spring Grove Visitor.

A Wellsville youth called upon one of the young ladies at Spring Grove the other evening, and on his way

home was treated to a fright by some of the wicked boys living at the camp ground. They were secreted in the bushes, and as he wandered down the path on his way to the last car half a dozen shots broke the stillness of the night, and the dignified young man went tearing down the hill. The crowd ran across the field in the hope of meeting him again, but in spite of the fact that he had much farther to travel he had covered the ground, and reached the station perspiring and frightened almost out of his wits.

MINIATURE QUAIL.

N. G. Macrum Has a Curiosity In Insects.

Mr. N. G. Macrum has at his residence on Second street a curiosity as rare as it is interesting. A bush of bitter-sweet is covered with insects not much larger than a large fly, but possessing the chief characteristics of the ordinary field quail. They are brown, and covered with a shell-like back, the head resembling that of a quail. Their actions are in keeping with the likeness, and they run along a bush with as much speed as a quail scots through the stubble. Mr. Macrum is proud of his tenants, and has shown them to a number of people.

READY FOR WORK.

The Central Committee Is Shining Up Its Saber.

The Republican central committee met at city hall last night, and in a short time had a good organization for the coming campaign. D. F. Nellis was chosen chairman, James N. Hanley got the secretaryship, and A. W. Thomas will act as treasurer. The campaign in the city was discussed, and the best methods for a thorough campaign were brought forward. The voters will be looked after with that solicitude for which the Republican party is noted, and good speakers will be brought here to show the claims of Republicanism.

A REPRESENTATIVE BODY.

Building and Loan to be Invited to Meet Here.

The directors of the Pottery's Building and Loan have authorized Secretary J. J. Purinton to invite the state league of building association men to meet here next year, and the secretary will go to the meeting in Springfield next week with the glories of Liverpool on the end of his tongue. Should he be successful about 125 of the sharpest business men of Ohio will attend the session of the league here, and will advertise the city far and wide when they go home. Mr. Purinton hopes he will be successful.

A SIX ROUND BOUT.

A Small But Select Audience Saw the Fun.

The rooms of the Liverpool Athletic club in the Midway were crowded with a select party last night who witnessed six rounds of good fighting by two men whose names are not given out. The doors of the club were closed against the public, but a sufficient number of spectators were allowed admission to fill the room. It is said the fighting was at times almost fierce, and the crowd got full enjoyment from the event.

A TOUGH CROWD.

Tore Up the Town in Parts Last Night.

An unknown crowd of youngsters were in town last night, and amused themselves at the expense of business men. Boxes on Washington street were scattered around, and a barber sign was knocked from its fastenings. On Sixth street they enjoyed the time by scattering everything they could find movable in the street. It was an exhibition of vandalism that should have been punished by arrest.

FROM UNDER THE FLAG.

But Doctor Sloan is Enjoying it In Canada.

"We are out from under the American flag and it gives one a peculiar feeling to see anything but the stars and stripes" wrote patriotic Doctor Willis Sloan, of this city, who is touring Canada on a bicycle. The party have met with some rain, but find the roads so well made that they have been inconvenienced but little. They are having a good time, and find the people very hospitable and kind.

BISHOP VINCENT TO PRESIDE

At the Big Methodist Conference in Canton.

Methodist ministers in this section are already talking of the annual conference, which convenes in Canton on Sept. 18. Bishop Vincent, the chancellor of Chautauque, will be the presiding officer, and the attendance will be as large as ever.

AS TO AMALGAMATION

President Devlin, of Trenton, Will Speak Monday.

A MASS MEETING OF POTTERS

Will be Held in Red Men's Hall—Mr. Devlin Was Here Yesterday and Will Return to Talk About a Solid Union. Pottery Matters.

Monday night may see the most important move made toward the amalgamation of the operative potters in the United States.

President Devlin, of the Trenton Sanitary union was in the city yesterday, and conferred with President Hughes, of the Brotherhood. He left for a trip down the river, expecting to return Monday evening. Meanwhile he decided to address all union potters who care to attend a meeting to be held in Red Men's hall, and it will be on Monday evening if the present efforts are successful. The subject will be that of uniting the Brotherhood with the Trenton organization. President Devlin feels sure of the move meeting with success. The Trenton sanitary men and in fact all sanitary potters are working full time and are willing for amalgamation. The other lines of pottery are not so rushing, but the prospects are good.

Mr. Devlin will explain everything and it will be to the interest of every union potter to attend.

ORDERING NEW SEWERS.

The Board of Health Will Notbrook Delay.

All the members of the board of health were in their places when Mayor Gilbert rapped for order except Huston and Chambers, but it did not take long to get through the business.

Doctor Ogden and Clerk Grosshans were not among those present. It was resolved to have sewer connections made at the Robinson and Cartwright properties on Seventh street, and the Nicholls house at Cook and Broadway. Sept. 6, was made the limit of time when those improvements were to be completed, and was also made the date when parties not liking the order can go before the board, and show good cause, if possible, why they object. On Sept. 7, J. L. Ainsley is asked to appear before the board, and tell why the health authorities should not clean about his property on Second street, and charge it to him. Officer King was paid \$50; the chemist who found what was in the Diamond well water got \$35, and \$3.50 was paid for burying dogs. The Riley brothers were present to protest against the order compelling them to sewer their property on Third street, and were allowed to talk. It developed that 13 families lived in the property, which has a frontage of 90 feet, and the board refused to rescind the order. The president and clerk were instructed to make a contract with W. H. Surles, paying him \$15 a month for the use of his float for dumping purposes, and a petition from the Pennsylvania company was considered. In conjunction with Mr. McCollough they wanted to lower the sewer from the old Davidson building to low water mark putting in iron pipe, but the board would not have it that way. It ordered a connection with the city sewer, and then went home.

A NICE PRESENT.

Mrs. Cooper Sends Thanks From Her Kansas Home.

EDITOR NEWS REVIEW—If you will allow me space, I desire through the columns of the NEWS REVIEW to express my thanks to my friends of the Second Presbyterian church, East End, for the beautiful present which the expressman has just delivered prepaid. To my surprise and delight the box contained over 100 pieces of the very best of china ware, scarcely two pieces being alike. Among the names is also found the name of Mrs. Johnson, of West End, with a valuable pitcher. The gift is prized for its great value and because it comes from the dear friends of East Liverpool.

Mrs. H. A. COOPER.

BOUGHT THE GROUND.

Hollow Rock Association Made a Purchase.

The people who form the Hollow Rock association have purchased the ground on which the cottages stand, and propose to make it a pleasant place. Five cottages have been built this season, all of them modern in convenience and presenting a very nice appearance. Doctor Sloan, of this city is among the builders.

—George James, of Irondale, was in town today calling on friends.

THE Chinese like the missionaries very much, but they seem to like them better when they are dead.

WHAT a pity President Cleveland can not conscientiously resign and appoint himself to the supreme bench.

EAST LIVERPOOL can go Sewickley one better in the jack-pot of progress—we are going to have a bridge and Sewickley isn't.

THE Democratic fight in this county is interesting because there are no spoils for the victors unless they are working for their respective chiefs on salary.

THE country correspondent who can't hear the noise of the thrasher in the land and fails to tell the dear public about it every time he writes is deaf as a post, and totally ignorant of a time honored custom.

THE American potter is opposed to a low tariff because it takes away his employment, reduces his wages, and does its level best to put him on the same plane as that occupied by the potters of Germany, France and England.

If some kind and wealthy individual near the grave, desires to go down in history as a philanthropist he can attain that end by changing his will, making it give the city \$10,000, every cent of it being for the construction of a public park.

THE Democrats in New York passed the Sunday laws for effect and the Republicans are enforcing them with effect. One party sought to gain favor by an act which they never meant to observe, and the other is doing its plain and honest duty like a little man.

IN THE FUTURE.

A Philadelphia paper, with that long headedness for which Philadelphians are noted, utters this prophecy and fact:

"The Democratic convention in Ohio is likely to be controlled by Senator Brice simply because no other Democrat is particularly anxious to take charge of an organization that is doomed to an overwhelming defeat. The nomination for governor is going a begging, and the chief interest in the convention will be in Brice's effort to keep the silverites in subjection and prevent them from adopting a free coinage platform. A Republican majority of 75,000 to 200,000 is more than probable in Ohio next November, as the McKinley and Foraker factions are now working together in harmony. Senator Brice's check book seems to be about the only incentive that the Democrats have for conducting a campaign at all."

If there were ever factions in Ohio they are gone. The line has been rubbed out, and the whole party stands before the public as one inseparable body. McKinley will be president, Foraker will be senator, and Mr. Brice can hold his New York residency without fear of being disturbed.

DUN'S TRADE REVIEW.

Unusual Activity In Business For Midsummer.

FUTURE PROSPECTS VERY BRIGHT

Speculation More Successful In Cotton Than In Any Other Product—Settlement of Mining Controversies a Great Factor—Bessemer a Shade Weaker.

NEW YORK, Aug. 10.—R. G. Dun & Co., in their Weekly Review of Trade, say: Business continues usually active for midsummer, and although there is perceptible relaxation, there are no signs of reaction. The one change of great importance which the past week has brought is eminently helpful—the amicable settlement between coal miners and employes in Western Pennsylvania, Ohio and Indiana. It is said that about 100,000 men will have their wages increased after Oct. 1 by this adjustment, and while the enlargement of purchasing power is of consequence, it seems even more important that a chronic cause of controversy has been removed by the new agreement as to company stores. There is no important change in crop prospects, and at this time no news is eminently good news. Speculation has been more successful in cotton than any other product during the past week, and has lifted the price an eighth. Wheat has declined a fraction with very scanty transactions, the extremely small western receipts influencing the market for the present more than the restricted exports. The concerted withholding of wheat by western farmers, if continued, would doubtless effect the price in the end, but it has already stopped Atlantic exports almost entirely, the amount, flour included, having been only 753,330 bushels for the past week against 2,986,346 bushels for the same week last year, and when foreign markets have supplied their needs from other quarters the western farmers may find reason to regret that they did not ship their wheat at the ordinary time. Corn tends to lower prices with more encouraging prospects, and the expectation of a heavy corn crop effects prices of provisions, as might be expected.

The industries continue to make progress, and higher prices for iron and steel products prove that the supply has not yet outrun the demand. Bessemer iron is a shade weaker, but grey forge has advanced about 60 cents, and finished products are remarkably firm. Lake copper has advanced to 12 cents. Tin declined about a quarter of a cent and is quoted at 14.20. Lead is a trifle stronger at 3.55. The anthracite coal market is completely demoralized, and prices have again yielded a little to about the lowest ever known. Sales of wool are not as much inflated by speculation as they were during the first half of July, but they still considerably exceed the actual consumption in the manufacture, amounting at the three chief markets to 6,300, 800 pounds. Prices are very firm. Some staple cotton goods have again advanced in price, but the market is unusually strong for the season. Failures for the week were 225 in the United States, against 264 last year, and 43 in Canada against 54 last year.

MRS. BARNUM'S WEALTH.

She Sets an Example Which Other American Women Should Emulate.

NEW HAVEN, Conn., Aug. 10.—The fortune of the great showman, P. T. Barnum, will not go the Greek Debitri Callai Bey, whom Mrs. Barnum has married. Just before the civil ceremony an ante-nuptial contract was signed in the New York office of Attorney George P. Ingersoll of this city. Ex Governor Ingersoll was present as Mrs. Barnum's personal counsel. The contract signed specifies that neither party shall have control over or claim on the fortune of the other.

Canadian Steamer Ashore.

VICTORIA, B. C., Aug. 10.—The Canadian Australian liner Warrimoo is ashore three miles northwest of Carmahna Point on the British shore opposite Cape Flattery. She went on in a fog, and it is believed she may float at high tide. The steamer was just entering from Honolulu. Details are very meagre. The bow is afloat, but the vessel is fast aground astern. The point is the same where the Duchess of Argyll was wrecked some years ago.

Serious Street Car Collision.

INDIANAPOLIS, Aug. 10.—Two heavily loaded electric trains on the Broad Ripple Suburban streetcar line collided at Illinois and Twenty-sixth streets, and at least a dozen people were more or less injured. The accident was caused by a motorman's failure to throw a switch. One train was loaded with people coming from an old settler's picnic at Broad Ripple.

Will Open New Territory.

SAN FRANCISCO, Aug. 10.—The United States government is making preparations to open the Yuma Indian reservation. There are 44,000 acres in the strip, it is estimated that 10,000 acres will cover all that may be called good land.

Death In an Elevator.

NEW HAVEN, Aug. 10.—Frank W. Cayton, janitor of the First National bank, was crushed to death in an elevator. His body was dragged between the elevator and the side of the wall from the sixth to the eighth floor.

The Pope Asks Protection In China.

LONDON, Aug. 10.—A dispatch from Berlin says it is stated there that the pope has written to Emperor William requesting him to take the Catholic missions in China under his protection.

A Railroad to Be Sold.

CHARLESTON, Aug. 10.—Judge Simon has ordered the sale of the Port Royal and Western Carolina railroad Oct. 17. The road is 208 miles long.

Mascot Defeats Hal Pointer.

BUFFALO, Aug. 10.—Mascot took the race from Hal Pointer after five heats. Best time, 2:08.

THE DEFENDER AGROUND.

After Numerous Efforts She is Again Successfully Floated.

NEWPORT, R. I., Aug. 10.—The Defender went out for a spin and while returning to the harbor, ran aground hard and fast on the spit, which runs out from Goat Island. The tide was on the ebb and after several trials, it became apparent that the sloop could not be freed before high tide, and she lay in an easy position where she struck bottom.

The tide was ebbing fast, and when, after futile attempts to free the sloop, it became apparent that the crew must wait for the next tide, they busied themselves in laying plans for floating their boat. These were put into effect, and when the tide was well on toward the flood, the men were sent out on the boom to try to "cast the sloop off." Their combined weight, so far as it was what was needed, and the plan worked excellently, at 8:20 the Defender floated clear of the spit and at once proceeded up the harbor to her anchorage. It is thought the sloop is uninjured, as she grounded easily and the tide did not leave her high enough to cause any strain. Her bottom will, however, be examined by a diver.

Illinois' Largest Crop of Corn.

SPRINGFIELD, Ill., Aug. 10.—Reports received by the state department of agriculture confirm the reports heard the past few weeks as to the condition of the growing corn crop, and the prospect now is for one of the largest and finest crops ever raised in the state. The season has been exceptionally favorable for the growth and cultivation of corn.

Cincinnati Relieves the Atlanta.

NEWPORT, R. I., Aug. 10.—The cruiser Cincinnati has been detached from the North Atlantic squadron and orders were given her to proceed to Key West, to relieve the cruiser Atlanta now stationed there. The Cincinnati will sail for Key West at once. The Atlanta will join the squadron here as soon as possible, after being relieved.

Found Dead In Bed.

NEW YORK, Aug. 10.—John Lynch, supposed to be a resident of Pittsburgh, was found dead in his lodgings, at 210 Second avenue. Letters show that he has a niece, Sister Marie Joannes, in St. Anthony's convent at Green Point and another relative, Mrs. James Dolan of 94 James street. Apoplexy is supposed to be the cause of death.

Justice Jackson's Funeral.

NASHVILLE, Aug. 10.—The hour for the funeral of Justice Jackson has been fixed at 10 o'clock Monday morning. It was at first intended to have the funeral Sunday, but a delay was determined upon in order to give Chief Justice Fuller and the other members of the supreme court time to reach here.

Pension Swindler Arrested.

ROCHESTER, N. Y., Aug. 10.—Deputy Sheriff Swain of Branch county has presented a requisition from Michigan for the arrest of W. W. Wilson, better known as "Slippery Jim," who is charged with pension swindling in Wayne county. The Michigan officers' papers charge Wilson with forgery.

Killed In Saving a Woman's Life.

SENECA FALLS, N. Y., Aug. 10.—In saving the life of a woman who was in front of a switch engine, Morgan Neget, a New York Central flagman, was struck and instantly killed. He leaves a wife and three children.

Uniting of Many Years.

OFFICIALLY CONFIRMED

Are the Reports From China by Mission Organizations.

ASK PROTECTION FOR FOREIGNERS

The Missionaries Repeatedly Urged to Come Down From the Treacherous Interior—Naval Forces Would Be Little or No Avail In Their Behalf.

WASHINGTON, Aug. 10.—No official advice has reached the state department concerning the reported destruction of American mission property at Inghok, China. It is believed at the state department that the place referred to is identical with Sui-Hing, where troubles were reported two days ago, and this second dispatch really relates to the same incident.

Acting Secretary Ades has received a telegram from Nashville, signed jointly by the Southern Methodist and Presbyterian Missionary society officials, confirming the report of the outrageous character of the Ku-Cheng massacre and urging the state department to protect the American missions in China. Mr. Ades has responded by telegraph that United States Minister Denby had already taken the most vigorous measures to secure the safety of Americans, and that renewed instructions to that end had already been cabled to the minister.

It is not doubted that Mr. Denby is doing everything possible in these disturbed conditions, to care for the missionaries, but there are some things beyond his power to accomplish at this time. He has for many months or personally and through the American consuls in China urged the missionaries to come down from the dangerous interior posts to the treaty ports, representing to them that no matter how inclined he might be to do so, he could not dispatch ships overland or up shallow streams to protect them. Admiral Carpenter is also willing to do everything proper to co-operating with the minister, and if he believes it to be prudent, to send some of his sailors and marines overland through a hostile country, he is fully authorized by his instructions from the navy department to do so.

The state department expects to secure full and ample reparation and indemnity for all injuries sustained by Americans, and indeed Minister Denby has already made a most vigorous demand on the Chinese government to that effect.

A high official of the navy, commenting on the criticisms that have been made because American gunboats have not done so nothing to protect the missionaries in China, said that the situation is not understood by these critics. The places where the riots have occurred have many hundreds of miles of inland where it is impossible for ships to go. He also believed that it would be less to attempt to send a force from the ships by land, and drew a comparison of a supposed riot in Utah, where British subjects were killed and said it would be as reasonable to expect British warships to reach Salt Lake or to send an armed force from New York as to expect the United States to reach the riot points in China by gunboats or by a landing force.

"If it is to be the policy of the American government," he continued, "that every time an American citizen is killed or American property in the interior destroyed, that our war vessels should be at a Chinese town on the sea coast why in we might set our ships at work."

FURTHER VIOLENCE FEARED.

Grave Apprehensions That the Chinese Situation is Growing More Serious.

NEW YORK, Aug. 10.—Rev. A. B. Leonard, corresponding secretary of the Methodist board of foreign missions, fears further violence to Americans in China. Speaking of the cablegram received by him from the missionaries at Foo-Chow, appealing to him to arouse the authorities to the necessity for action, he said:

"I have wired the secretary of state at Washington urging him of the necessity to act promptly for the safety of our citizens in China, and asked to be advised of what steps would be taken. I have as yet received no reply. 'I understand that Mr. Olney is at Buzzard's Bay, at that Mr. Uhl, first assistant secretary of state, is in Europe. I do not know who is in charge of the department, nor do I know what is being done in this grave situation. 'I do not like to criticize, but I do know that our missionaries are praying for the presence among them of the government's defense strength, and they are not the kind of people to ask if it is not badly needed. It is also certain that if our missionaries are in danger, so are all of the Americans and foreigners in China.'"

Caution about the Use and Selections of Spectacles

"Persons having normal vision will be able to read this notice at a distance of 10 inches from the eye with ease and comfort; also will be able to read it with each eye separately. If unable to do so, your eyes are defective and should have immediate attention. When the eyes become tired from reading, writing, or if the letters look blurred and run together, it is a sure indication that glasses are needed. The same rule in the case of goods of all kinds, and should be followed. Do not buy cheap goods, as they will cause more injury to the eyes than the cost of the glasses. Do not buy of a cheap dealer, but of a reliable one, who will guarantee the glasses to be correct."—The Editor.

JAPANESE IMPUDENCE

May Compell Uncle Sam to Resort to Harsh Measures.

THEY BOARD AMERICAN VESSELS

In Quest of Chinese or Any Enemy, Notwithstanding the Protests of the United States Minister—Ordered to Fire Upon Our Escorting Naval Boats.

WASHINGTON, Aug. 10.—In the event of war between Russia and Japan the United States may find itself an unwilling party unless the Japanese retreat from a position which they assumed towards the United States during the progress of the last war with China. It is not generally known that just before the declaration of the armistice which preceded the signature of the treaty of peace an issue had grown up between the United States and Japan that threatened to lead to actual hostilities between the two countries, and that a hostile clash was perhaps only averted by the conclusion of the Chinese war. This issue arose through the assertion by the Japanese authorities of the right of search of American vessels. They insisted that they had the right to board an American vessel if they found any enemy there, and that they might find, even though they were not passengers. Minister Dunn very promptly denied the existence of any such right on the part of a combatant, and hot correspondence ensued. The Japanese insisted on their right and even when Mr. Dunn reminded them that the United States had gone to war with Great Britain on just this issue and had forced the abandonment of any claim to such a right they refused to admit that they had the right. The minister intimated that the first assertion of such a right would be regarded by the United States as an unfriendly act and therefore likely to lead to war.

The matter progressed to that perilous state that when Admiral Carpenter was about to escort an American merchant steamship out of a Japanese port, to prevent her detention by the Japanese, the latter, it is said, gave orders to the shore batteries at the mouth of the harbor to fire upon the American naval vessel if they attempted to do so. This fact came out after the conclusion of the armistice, which fortunately occurred at just this period in the negotiations, thereby preventing an incident that would certainly have led to war, but the significant point is, that since that time the Japanese have steadily clung to the same contention, promising serious trouble in the event of another war in the east.

CRUSHED TO DEATH.

Foolish Frank of Boys Results in Killing a Young Farmer.

MANHEIM, Pa., Aug. 10.—Jacob N. Kreider, a well-known young farmer of Rapho township, met with fatal runaway accident near here. He was engaged hauling stone with a four-horse team when several boys coming on behind attempted to drive ahead of the team. Mr. Kreider's team was frightened and the horses started to run. Mr. Kreider attempted to catch the lead horse, but fell and the wagon loaded with stone passed over his body, crushing him to death. He was three years ago married to Miss Katie Hostetter, a well-known young lady of Penn township.

Tried in Vain to Kill Himself.

READING, Pa., Aug. 10.—Miss Beckie Shaler, who was arrested on the charge of keeping a disorderly house, was so depressed over the occurrence that she procured a bottle of laudanum and swallowed all of it. She was found shortly afterward violently sick, and owing to the large dose and strenuous efforts of the physicians who were summoned her life was saved. Miss Shaler has been employed as a cook in a hotel and she claims that she was not responsible for the occurrences in her house which caused the warrant to be issued.

Severely Shocked by Electricity.

WILMINGTON, Pa., Aug. 10.—Howard Troxell, a telephone lineman, while engaged in stretching wires received an electric shock estimated at almost 1,000 volts. Through the promptness of a fellow workman the wire was drawn away. Troxell remained unconscious for half an hour. He was given a hypodermic injection of strychnine and cold water applications.

PUT-IN-BAY YACHT RACES.

Sultana Outclasses Her Opponents and Wins Easily.

PUT-IN-BAY, O., Aug. 10.—The free for all, Lakeside and return, sailing contest, was the best race of the week. The first boat across the line was the Josephine, followed by the Sultana, Nava, Mischief, Cynthia, Elfin, Brownie and Clytie. The wind was light from the west. After the yachts rounded Ballast island a breeze sprung up from the east and the run to the stakeboat was with started sheet.

The Sultana was far in the lead turning the stakeboat, being about ten minutes ahead of the Nava and Josephine. Mischief was next to the round, followed by the Cynthia, Pearl and Sprite. The rest of the yachts dropping out. The home run was closehauled and the Sultana showed her prowess by running away from everything, beating the Nava, her greatest rival, nearly 15 minutes. Dachtler's new Mischief showed up well, winning the third place, beating Cynthia and Josephine.

A Mysterious Death.

GEORGETOWN, O., Aug. 10.—Isaac Watson, a farmer living three miles west of this place, left his house, telling his wife that he intended strolling over the farm to look after his tenant's crops. Several of the members of the family insisted on accompanying him, but he said he preferred to go alone. He did not return at dark. Search was instituted for him, which resulted in finding his dead body lying upon the banks of one of his large fish ponds, a full half-mile from the house. No marks of violence or evidences of what caused his death were to be observed.

Shot in the Neck.

LOVELAND, O., Aug. 10.—John Kelley and Jim Lucas, both colored, became engaged in a quarrel over a board, and Kelley assaulted Lucas with a brick. Lucas picked up a hatchet and ran into Willis Glenn's house. Kelley went away and returned with a shotgun, and fired. Part of the load took effect in Lucas' neck, making a dangerous wound. Kelley was locked up, and Lucas taken to a doctor's office to have his neck dressed.

A Sunday Law War.

SPRINGFIELD, O., Aug. 10.—As a result of the order closing the tobacco shops on Sunday, a meeting of 30 cigar men was held, at which a committee was appointed to cause the arrest of any one found performing manual labor on the Sabbath. The tobacco men insist that news stands, icecream saloons, soda-water fountains, street cars, lively stables, etc., be prohibited from doing business on Sunday.

SMALL OHIO HAPPENINGS.

The Millersburg Sentinel, an independent paper, was launched at Millersburg. H. L. Goll is the proprietor.

William Campbell, one of the alleged counterfeiters arrested at Portsmouth recently, has been admitted to bail.

Telegraph Operator Vannard of West View caused the arrest of William Clark of Pontiac, Mich., on a charge of assault on his wife.

Jacob James, living near Bucyrus, while picking berries, was confronted by a six-foot snake curled around the limb of a tree. Jacob fled.

Nicholas Rinehart, employed at the Burgess mill at Portsmouth, was struck by a pulling iron rod which passed through his right foot, pinning him to the ground.

Ellis Chapin, confined in the county jail at Mt. Vernon on a charge of burglary, broke the lock of his cell and cut his way to freedom through the brick wall of the building.

Mrs. J. W. Campbell, aged 36, the wife of a merchant of Crabtree, eloped with her husband's hired man, Marion Crabtree, aged 19. The elopers took several thousand dollars belonging to Campbell.

J. L. Bishop, living near Delaware, bought lightning rods from a stranger for an advertisement. Bishop signed the contract and later cashed the note for \$100.

Governor McKinley has written a letter to the general committee of the Cleveland centennial, which is to take place next year, in which he expresses his hearty approval of the plan of having a general state encampment of the state militia at Cleveland during the centennial celebration.

Lewis Schwenkmeyer, a farmer in Monroe township, Adams county, filed suit against William Chubb, a neighbor, for slander in charging that the plaintiff stole wheat from the defendant. Homer Kimble, another farmer, filed a similar suit against Chubb.

THE MID-OCEAN DISASTER.

Survivors of the Prince Oscar Will Return Home.

PHILADELPHIA, Aug. 10.—The survivors of the Prince Oscar disaster will be sent home by Consul Clipper by the White Star Line steamer Tontonic, which sails for Liverpool next Wednesday. They will leave this city for New York on Tuesday. The depositions of Captains Sproule and Henderson were sent abroad yesterday. Captain Henderson gave a detailed statement of the catastrophe to the British consul, but the latter refused to make it public.

Concerning the identity of the vessel which ran down the Prince Oscar, Chief Officer Bernard Lynch, who was on watch at the time, said that she was a four-masted vessel, square rigged on her three masts, and fore and aft rigged on the mizzen. "She was coming toward us under all plain sail and was evidently bound north—it may have been to England or some port in the United States. She could not have been an Australian vessel, as they are mostly wool laden, and this one collapsed so suddenly as to make us believe she was laden with nitrate and bound round the horn from Chile."

FLOODED WITH SPURIOUS COIN.

Counterfeiters Unload Their Product in Wilmington, Del.

WILMINGTON, Del., Aug. 10.—This city is fairly flooded with counterfeit silver dollars. About ten days ago one was presented at the Farmers' bank by a depositor and detected. Since then the banks have been on the lookout and dozens have been detected and then turned down. They were presented by innocent depositors, who had accepted them in the course of business.

The spurious coins are thicker than the genuine dollars but of lighter weight. The composition of which they are made is soft and can be readily cut with a knife. From the number of these counterfeiters in circulation it is believed that the profit from "showers of the queer" have recently unloaded in this city.

Heavy Cloudburst in Colorado.

DENVER, Aug. 10.—A special from Del Norte, Colo., says: A heavy cloudburst of the hills east of Del Norte, Thursday, sent immense volumes of water down Pine creek and doing much damage to roads, bridges, growing crops, the Denver and Rio Grande railroad track and the property of the Del Norte Breving company. The water flowed from the hills to the valley on the sides of the Del Norte east and west.

Lost His Arm but Saved His Life.

HAMBURG, Pa., Aug. 10.—Francis Morgan, a farmhand employed on Mrs. Rutter's farm, near Strausstown, had a narrow escape from death by having his arm caught in a threshing machine. The arm was so horribly crushed and lacerated that it was amputated several inches below the shoulder.

A Hopeless Deadlock.

JACKSON, Miss., Aug. 10.—When the Democratic state convention reassembled here the balloting for rail road commissioners was proceeded with. The convention is in what seems a hopeless deadlock on these nominations, 21 ballots having been taken without result.

Leaped to Her Death.

SCRANTON, Pa., Aug. 10.—Kittie Woods jumped from the fourth-story of her home to escape a police officer who was seeking to arrest her for drawing a knife on the proprietor of the place, Amos Bishop. She is now in a dying condition at Lackawanna hospital.

Legislative Marshall Kills a Politician.

JACKSON, Mass., Aug. 10.—Hon. T. Dabney Marshall of Vicksburg, a member of the state legislature and nominee for state senator, just shot and killed Mr. Dinkins, a politician. The shooting occurred at Brandon, 15 miles east of here.

Two Appointments Made.

East End people are rejoicing because they are rid of a party who has long been under suspicion. It is said that a move was on foot to compel the removal of the individual had not the hint been taken when it was.

A resident of Bradshaw addition disposed of the mad dog question in short order last night. His child had been annoyed by a neighbor's dog, and he walked into the street and hit it with a club. The dog died this morning.

The Courier, a boat well known in this trade, has been sold by Captain Gamble to the Big Sandy company. The price is not known, but the value of the boat is \$10,000. Another has not yet been purchased to take its place.

The friends of Sergeant Major Hoover were surprised to see the sprightly officer walk with the aid of a cane when he came to the city last night, but they understood it all when he mournfully informed them that he had been riding a wheel.

"These Democrats who want the empty honor of bossing the county organization are trying to get together and patch up their fight," said a member of the party today. Potts is hedging and Deidrick seems willing to come to the scratch. It is a transparent scheme, but likely pays them better than fighting to a finish.

Chicago is a big town, and thousands of tons of garbage collect in it every week, yet Chicago is to have a garbage furnace that will only cost \$8,200. A little calculation shows that East Liverpool could have a furnace for a very small sum if the ratio based on comparative population is carried out by the company building furnaces.

A farmer on the West Virginia side got a shot at a party of thieves who were in his corn last night. They are said to live near the river in this city, and have been in the corn field before. The name of the farmer could not be learned. An incident of a similar character last year came near costing a shanty boatman his life.

Not long ago a man and woman, friends of a family in town, came to visit them, and acted so outrageously that they were asked to go home. They were indignant, but their indignation did not touch that of the host when he found his wife's best shoes had gone with them. He followed in haste and recovered the stolen property.

Some of the population of Spring Grove will go home next week, and preparations are going on in more than one cottage, but many cottagers will stay right there until the weather drives them to town. To the present time there has not been a break in Presbyterian row, and none is expected for a few weeks. Ervin Dunlap and the Misses Dunlap moved in today.

John Pickall, who has been camping with the Liverpool boys at Romey, W. Va., returned home this morning, and is delighted with his stay in the mountains. The remainder of the party like the place so well and are having such a good time that they will stay longer than was originally intended. Game and fish continue in abundance, and they are enjoying all the sports of outdoor life.

Lyman Rinehart, who is working in Connellsville, Pa., is so struck with the prosperity of the place that he wants his father to forsake Liverpool and go to that place. All the plants in the coke region are in operation, and Connellsville being the center gets the bulk of the business. Rinehart has been made chief clerk of the store where he is employed, and taking all in all seems to be resting on the safest side of easy street.

A pair of drunks were walking on Fourth street the other night when one of them wondered what time it was. After a few minutes discussion they thought of the clock, but were so situated at that moment that they could not see it. One, however, chanced to see the moon coming up behind the tower, and turning to his companion with a look of disgust said: "Say, Bill, they've took the hands off." George Adam is responsible for the yarn.

WILL CAMP AT NEWARK

**Soldier Boys are Jubilant Over
Good News.**

THEY GET FULL CAMP PAY

Colonel Gyger Could Not Arrange With
the Southern Railroads For a Rate to
Chattanooga, and the Scheme Was
Abandoned—The Date Not Set.

The soldiers are happy because they
know they will soon enjoy the pleas-
ures of camp life on the state grounds
near Newark.

Adjutant Gyger and Sergeant
Major Hoover were in the city last
evening for the purpose of examining
Lieutenant Finley, of Company E.
The examination did not require a
world of time, and the young officers,
who were the guests of Captain
Hobbs, had a few minutes in
which to tell what they knew
of the coming encampment. The
adjutant said it was a long story, and
Colonel Gyger had been working hard
to make the outing of the regiment a
time of unalloyed pleasure this year.
He had endeavored to arrange with
the southern railroads, but they
wouldn't arrange worth a cent, and
the plan was abandoned. The first
move was to offer them a rate which
would leave enough of the appropria-
tion to give every man 34 cents a
day for living expenses in camp, but
they turned down the offer, and
shut off negotiations. The regiment
will therefore go into camp at the
state grounds near Newark, one of
the most beautiful spots in Ohio, and
only occupied to the present time by
one regiment. The Eighth can
have the week beginning Aug. 24 or a
week in September, but it is probable
that the first date will be chosen.
Each man will get full camp pay now
that it has been decided to keep the
money in the state and not give it to
the railroad companies, and there is
ample appropriation to give every man
a good week. The grounds are well
laid out, and the place has won the
kindest regard of all the men who
have been there.

Captain Supplee is urging that the
men go to camp in style, and to ad-
vertise the industry of the city as well
as provide the boys with a comfort
that will beat anything the state can
provide, thinks a china canteen is
the proper thing. The company have
several samples, and like them
so well that an effort will likely be
made to provide the company with the
convenience. The boys are en-
thusiastic over the prospect, and ex-
pect a good time.

Although Captain Supplee has sent
in his resignation as was stated yester-
day there may yet intervene cir-
cumstances which will cause it to be
recalled. Colonel Gyger and other of-
ficers of the regiment have a warm
place in their hearts for the captain.

BADLY SCALDED.

**Fred Riley's Child Pulled Over Boiling
Water.**

The little child of Fred Riley, East
End, was seriously burned today.

The youngster was playing about
the kitchen when it pulled over a ves-
sel filled with boiling water. The
child's back and breast were scalded
and its injuries may result seriously,
but it is hardly thought that they
will be fatal.

Not That Way.

Charles S. Tucker, who is involved
in a legal contest with Nelson Cornell,
writes the NEWS REVIEW that he did
not assault Cornell, but when Cornell
said those words to his wife she told
him her husband would make
him take them back, and was
informed that her husband
"couldn't lick one side of him."
When Cornell came up West Market
street Tucker went out for the purpose
of making him apologize, and claims
that Cornell struck him. Then Tucker
knocked him down and that is all
there was to it.

Investigating a Tent.

The theft of the amateur show tent
is causing no end of trouble for some
people, and interesting developments
of an unusual character are antici-
pated. Inquiries have been made
which prompt the belief that there is
something wrong.

A Gentle Corrective
is what you need when your
liver becomes inactive. It's
what you get when you take
Dr. Pierce's Pleasant Pellets,
they're free from the violence
and the griping that
come with the ordinary
pills. The best medical
authorities agree that
in regulating the bowels
mild methods are prefer-
able. For every dis-
arrangement of the liver,
stomach and bowels,
these tiny, sugar coated
pills are most effective.
They go about their
work in an easy and
natural way, and their
good taste. Once used,
they are always in fa-
vor. Being composed
of the choicest, con-
centrated vegetable ex-
tracts, they cost much
more than other pills
found in the market,
yet from forty to forty-
four are put up in each
sealed glass vial, as
sold through druggists, at the price of the
cheaper made pills.

Pleasant Pellets" cure biliousness, sick
and bilious headache, dizziness, consti-
pation, or constipation, sour stomach, loss of
appetite, coated tongue, indigestion, or dys-
pepsia, windy belchings, "heart burn,"
pain and distress after eating, and kindred
derangements of the liver, stomach and
bowels. Put up in sealed glass vials, there-
fore always fresh and reliable. Whether
as a laxative, or in larger doses, as a gently
acting but searching cathartic, these little
"Pellets" are unequalled.

As a "dinner pill," to promote digestion,
take one each day after dinner. To relieve
the distress arising from over-eating, nothing
equals one of these little "Pellets."
They are tiny, sugar-coated, anti-bilious
granules. Any child readily takes them.
Accept no substitute that may be recom-
mended to be "just as good." It may be
better for the dealer, because of paying
him a better profit, but he is not the one
who needs help.

A free sample (4 to 7 doses) on trial, is
mailed to any address, post-paid, on receipt
of name and address on postal card.

NEWS OF THE WHEELMEN.

Riviere, the French rider, recently rode
623 miles in 24 hours.

John S. Johnson is the way the young
professional is said to write his name since
he left the amateur ranks.

I. B. Potter, the New York state chief
consul, is being boomed for president of
the League of American Wheelmen.

It is said that A. A. Zimmerman, the
professional rider, receives \$5,000 for com-
peting in the bicycle meets in Australia in
addition to a guarantee for every race in
which he rides, win or lose.

Willie Windle, the former well known
racer, is training on the Waltham track
and will go for all the class A records
shortly. Windle was at one time Zimmer-
man's most formidable rival.

Cyclist L. D. Cabanne is in very bad
shape, and it is doubtful if he will be able
to do any racing for some time to come.
Cabanne received a very bad fall at Asbury
park in the first day's races and has not
recovered from the effects.

John S. Johnson was the first bicyclist
to ride the mile in less than two minutes
in the following different ways: The mile fly-
ing start, standing start, straightaway un-
paced, standing competition and flying
competition. The first performance was
done three years ago.

Allertons and Axtells Not Pleased.

"Do you ever expect to raise another Al-
lerton or an Axtell?" a Chicago Tribune
reporter recently asked C. W. Williams.

"I hope to, but can't say that I expect
to do so. The more experience I have in
breeding the more certain I am that Al-
lertons and Axtells do not grow on every-
body. I have some young things that I
think well of, but I shall not be discour-
aged if they are not record breakers. You
know there never has been a 3-year-old as
fast as Axtell or a 5-year-old Allerton's
equal, and that being the case, I have done
very well even if I should produce no more
like them."

"Will another trotter sell for \$100,000
within 20 years?"

"I don't know. The fact is only two
trotters have ever been sold for that
amount. Senator Stanford sold Arion for
\$125,000, and I sold Axtell for \$105,000.
They were sold during prosperous times
and when money was plenty, but as we
will surely have as good times again it
may be that some colt or horse having pho-
menal speed will sell for as much or
even more than that paid for Arion or Ax-
tell."

Inquire of George Thompson, Thomp-

A MILLIONAIRE RACING CYCLIST.

**George Ruppert Rides For Glory and Has
Done a Mile Under Two Minutes.**

Young George Ruppert, the son of New
York's millionaire brewer, Jacob Rup-
pert, is probably a simon pure amateur.
Most cyclists pose as amateurs, but ride
for money indirectly, but Ruppert has all
the money he cares for and only races for
glory. This year, in the early spring, he
was filled with the desire to emulate the
examples of Zimmerman, Sanger and
Johnson, and, with that object in view,

GEORGE E. RUPPERT.

secured the services of Trainer Billy Young,
who so successfully handled Fred Titus
last year, and went to Savannah last
spring to try himself for the task. That his
man had speed and plenty of it Young soon
found.

After getting into condition and able to
ride miles in 2 minutes 15 seconds, Ruppert
went north and entered the Intercollegiate
races, where he displayed speed, but was
invariably outgunned. From then
through several competitions it was the
same story, until the national meet of the
L. A. W. at Asbury Park, when Ruppert
was beaten in every race and in slow time,
which made the wise ones shake their
heads and accuse him of having no heart.
Realizing that something must be done or
his charge would become disgraced, Young
determined to have him try for a record
paced. Ruppert outdressed his pacemakers
and was very much surprised when told
that the mile was ridden in 2 minutes 3 3-5
seconds. This so satisfied Ruppert that he
determined to close up his racing year with
a grand coup, so he invited a few friends
down to Manhattan Beach track to wit-
ness his trial against the New York state
record of 2 minutes 2 seconds, held by C.
M. Murphy.

He rode a truly great mile, and his time
of 1 minute 55 2-5 seconds is not only the
New York state record, but is next to the
swiftest class A mile ever ridden, the fast-
est being A. W. Porter's famous 1 minute
52 3-5 seconds at Waltham, Mass.

The time satisfied Ruppert, and he deter-
mined to ride no more this year. Ruppert
will attend Columbia college next fall,
but promises to ride again next year if his
time is beaten. He has no desire to race
for prizes, and in future will merely en-
deavor to hold the class A records. Per-
sonally he is a modest, retiring young fel-
low with a slight hesitation in his speech,
handsome and well liked by his friends for
his open handedness, and no opponent can
say that he ever took an unfair advantage
in a race.

HORSES AND HORSEMEN.

It is reported that an offer of \$25,000 has
been made for William Penn, 2:11 1/2.

Lucky Baldwin has offered P. J. Dwyer
\$75,000 for Handspring, but Dwyer says
he will not sell the colt at any price.

Byron McClelland recently bought a
picture of Henry of Navarre for \$200 and
made Soup Perkins, his jockey, a present
of it.

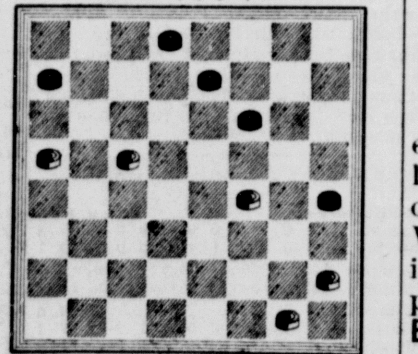

Allerton and Axtell were foaled but six
days apart. Allerton was the elder, but
Axtell was the first to achieve national
fame, and was sold for \$105,000.

Rubinstein, the great Ohio pacing stal-
lion by Baron Wilkes, starts out the season
with remarkable performances that stamp
him one of the best of the free for all can-
didates.

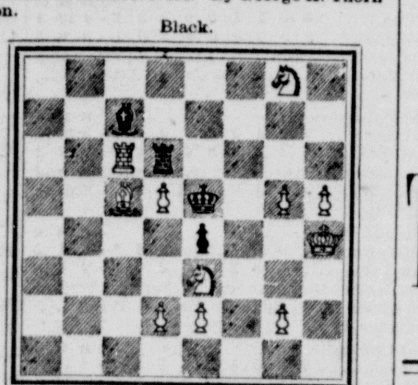

That Azote escaped a life of ignoble ob-
scurety was almost an accident. He was
bred and owned at famous Palo Alto, but
in his younger days was so little thought
of that he was put to the drudgery of work
on the farm.

NO NEED FOR THE ENGINE

The Conjunction of the High and Low Service Will Throw Water Over Any Building in Town—They Hate to See It Go, But Think a Babcock Would Be Better.

The handsome Silsby engine at the fire station has so long been the pride and joy of the city that to sell it seems almost parting with a tried and true friend, but the steady march of progress cannot be denied, and the efficacy of the department would be increased if another piece of apparatus occupied the place it has filled so well.

The first intimation that the department could dispense with the engine dawned upon interested parties when Superintendent Phil Morley announced the ability of the water works to provide pressure for streams that would cover any building in town. If this be true, and there seems no reason to doubt the official's word, why should not the city sell the engine, and purchase a Babcock on wheels? In view of the Silsby, and the excellent manner in which it has always behaved, the thought almost appalled those who heard it expressed, but time has been wearing out the sentiment, and the hard, practical side has appeared long enough to let all concerned realize the importance of the move. When questioned about the matter today Chief Adam said:

"I do not want to be understood as in any way underrating the value of the engine, for it has stood us in good stead on many occasions when without it the damage would have been great. We could not have handled the Dresden or Diamond fires so well had it not been for the engine, because we would not have had the pressure. But now the pressure is so much greater than at that time that we can afford, I think, to get along without the engine. If the water works can throw water to the height and in such quantity as the officials say, and I believe they can, there is no need of the engine. It is suggested that the engine be replaced with a Babcock on wheels, one of those two 20 gallon tank arrangements, with a reel mounted at the top. It would not cost much, but it would answer a need in the department. These extinguishers are charged much after the fashion of the small ones we have now, except they are much more powerful, and can be used with effect on large fires. They do not damage goods as water does, and seldom, if ever, fail to do the work expected. I have heard marvelous stories of their work, and have seen the fluid put on clothing without leaving a spot. The machine is mounted on wheels and would not occupy as much space as the Silsby at the station. If council can sell the engine for anything like its value, and they ought to get a good price out of it, for it has been tenderly cared for, and the water works can give the required pressure, it would be better to have a chemical."

This opinion is held by other members of the department who think Wellsville might buy the engine. They have scarcely any protection against fire, and if a conflagration should rage there they would have to call on Liverpool for help. With the engine reinforcing the pumps at the water station they could take care of their own fires, although Liverpool would always be in readiness to help. Engineer Kurfman has cared for the big machine as well as if it was his own property, and it looks as well today as when it was purchased. There would, of course, be a falling off in the purchase price, but enough would be left to buy a Babcock. The change would not throw the faithful engineer out of a position, for he would have his time taken up by the new purchase.

"Let Wellsville have the engine for a nominal price and the town will buy," said a business man. "They must have some fire protection down there soon, and now that they have spurned the half-expressed offer of this place to give them water by buying their own pumps they may want something that will keep them out of the hole. As I understand the insurance men, it don't make much difference in the rate whether there is an engine here or not, and it might change things a little if the city had a Babcock. Council will do what's right if they can sell the engine for anything like a good price."

In discussing the matter further Chief Adam said that he did not favor the sale of the engine unless there was good cause for it being considered

useless, now that the pressure of water would do its work. If half a dozen streams, or more than the two usually used at a fire, can be secured without the engine the Babcock would be a better part of the equipment of central station than the Silsby.

READY FOR THE RACE.

The Boys Are Now Speeding From Steubenville.

The road race from Steubenville to the quarters of the C. C. C. C. in this city this afternoon promises to be the prettiest contest of its kind ever seen in the city.

The riders were qualified last night, and every man was in good spirits when they gathered at the room this morning preparatory to taking the car for Wellsville. Some have been training hard, and proudly displayed the firm muscles produced by their work. They will be under these numbers:

Rex.....	No. 7
Kerr.....	" 4
Holtzman.....	" 14
King.....	" 5
York.....	" 8
Jewell.....	" 9
Bott.....	" 10
Laughlin.....	" 12
Deldrick.....	" 15

The race, as before, will be from the scratch, every rider will start one foot on the ground when the start is made. The race is through the same country as the race of a month ago, and because many of the riders have been over the course, and some good time has been made it is thought there will be some close finishes. The danger of accidents is lessened because the boys have picked the easiest places in the road to ride and know every inch of the ground. There was some betting last night, the money as a rule being against time, the phenomenal performance of last month making some of the sports believe there can be no touching it again. Fifth street from Jefferson to the scratch will be well watched by the police, and the crowd are asked to keep back and leave an open space in the streets. Some one may get hurt if this warning is disregarded.

TRAPPE IS HERE.

The Bold Cleveland Crack Will Ride on Monday.

Trappe, the Cleveland wheelman who has a wicked habit of winning races when all the cracks are entered, arrived in the city last night and was shown around by Will Taylor, president of the club, and the men against whom he will ride, Irons and Hale. He was in Canada when the telegrams from here reached Cleveland, and he could not get away until yesterday afternoon. The story of his being suspended amounts to nothing more than an error. He was disqualified at the Dayton track, for the day, and the correspondent who sent out the news did not know the difference between disqualification for a day and suspension for a season as interpreted by the men who know L. A. W. law. He will ride on Monday in the races.

The races at the park will begin at 2 o'clock on Monday afternoon, and the best boys of the C. C. C. C. will be there to help the cracks along or beat them if they can.

A BAD YEAR.

Enormous Destruction of Property on the River.

The river editor of the Pittsburgh Chronicle Telegraph makes this timely observation:

"The destruction of marine property along the Ohio river has been something enormous during the year. There have been thousands of dollars worth of coal and barges lost, and numerous small boats sunk. The heaviest loss has fallen upon the mail line, they having lost the steamers State of Missouri and Big Sandy, the former by water and the latter by fire. Several lives have been lost, and, altogether, it has been a poor year in steamboating."

Now, why in the world did he forget the beautiful Iron Queen, which died so hard a few months ago?

GETTING WARM.

The Judicial Contest Is Growing Decidedly Interesting.

If the following special from Youngstown is founded on fact, the judicial fight grows in interest:

"Some Republicans assert that Judge Johnston is in the race, not that he expects to land the nomination, but at the proper time will swing the delegation in the convention for Burrows. If Judge Johnston desires the delegation from Mahoning county for himself he will get it solid, but should he desert it to help another candidate, and this is the view taken of his candidacy by the supporters of Judge Robinson, and he may have trouble in handling it and delivering the votes."

THE NEXT PRESIDENT

He Came to Liverpool on a Morning Train.

GOV. WM. MCKINLEY LOOKS WELL.

The Hand of Time Has Touched Him Lightly Since He Was Last Here, and He Looks the Embodiment of Manly Strength and Intellectual Vigor.

William McKinley, the present governor of Ohio and the next president of the United States, arrived in the city this morning, and, in company with Mrs. McKinley, is at the residence of Colonel Taylor on Sixth street.

The governor looks a few years older than when he last visited East Liverpool, but his step has not lost elasticity nor his face the bloom of health. He seems to be every whit as young in action as at any time during the years he has been known to Liverpool people. The honors that have been showered upon him for his bold stand in defense of America and her industries have not changed his manner, and the illustrious Governor McKinley is not one bit more pompous than was the hard working Major McKinley, member of congress. There was a smile on the governor's face as he stepped from the car, and the smile broadened into a pleasing expression as he shook hands with the friends awaiting his arrival. He looked the picture of manly strength and intellectual vigor as he moved toward the carriage, and no one seeing him at that moment would deny for an instant his ability to fill the highest office in the nation with honor to himself and justice to its 70,000,000 of people.

The governor is accompanied by Mrs. McKinley, who has been ill, but is now very much improved. They went from Columbus to Pittsburg over the Panhandle, and were brought here this morning in a special car. He will see the racers finish this afternoon, and will watch the boys as they spin around the track on Monday. The length of the visit has not yet been decided, but will extend through next week.

SEVERAL PAID,

And Others Gave Security For Their Fines—One New Victim.

William Timmons and Frank Dickey paid Mayor Gilbert \$5.00 each for the horse racing they indulged in on lower Fourth street Thursday night.

Charles Wilson for fighting with John Johnson paid \$6.00 today.

C. A. Tucker appeared at city hall and pleaded guilty to assaulting Nelson Cornell. He was fined \$6.00. Cornell has not yet answered to the charge of fighting.

Charles Bashor, who was arrested for drunkenness, is still in jail today.

Tim O'Toole, an aged spectacle seller of Salineville, was drunk on Second street when Constable Lyon got him this morning. He left four pairs of spectacles as security for a fine of \$5.00.

TO PLAY BALL.

Three Clubs Go Out of Town This Afternoon.

The East End Gyms left this afternoon for Empire, where they will play ball. Parrish and Shaffer will be the battery. They announce that Purinton, who was mentioned yesterday as one of the battery, is not in it.

The Gyms were delayed by an accident at the Thompson pottery which disabled their cab. A wheel was torn off by a street car.

The Burford pottery team went to New Cumberland today to play ball. The battery for Burford's are McShane and Davis.

The Oakland club went to Wellsville this afternoon to play ball. Their backer Mr. Thomas Lounds, accompanied them.

READY FOR BUSINESS.

The Lawyers Will All Be at Work Monday.

The vacation of the Southern Columbian Bar association ends tonight, and all the offices will be open on Monday. Almost all the lawyers are home from their various trips, and are ready for another year of work. Business will be good next week, and the justices, courts promise to be crowded with business for the city is no more peaceful in summer than in winter, and to dam the flow means the accumulation of cases.

A DOZEN SHOTS.

How They Frightened a Spring Grove Visitor.

A Wellsville youth called upon one of the young ladies at Spring Grove the other evening, and on his way

home was treated to a fright by some of the wicked boys living at the camp ground. They were secreted in the bushes, and as he wandered down the path on his way to the last car half a dozen shots broke the stillness of the night, and the dignified young man went tearing down the hill. The crowd ran across the field in the hope of meeting him again, but in spite of the fact that he had much farther to travel he had covered the ground, and reached the station perspiring and frightened almost out of his wits.

MINIATURE QUAIL.

N. G. Macrum Has a Curiosity In Insects.

Mr. N. G. Macrum has at his residence on Second street a curiosity as rare as it is interesting. A bush of bitter-sweet is covered with insects not much larger than a large fly, but possessing the chief characteristics of the ordinary field quail. They are brown, and covered with a shell-like back, the head resembling that of a quail. Their actions are in keeping with the likeness, and they run along a bush with as much speed as a quail scots through the stubble. Mr. Macrum is proud of his tenants, and has shown them to a number of people.

READY FOR WORK.

The Central Committee Is Shining Up Its Saber.

The Republican central committee met at city hall last night, and in a short time had a good organization for the coming campaign. D. F. Nellis was chosen chairman, James N. Hanley got the secretaryship, and A. W. Thomas will act as treasurer. The campaign in the city was discussed, and the best methods for a thorough campaign were brought forward. The voters will be looked after with that solicitude for which the Republican party is noted, and good speakers will be brought here to show the claims of Republicanism.

A REPRESENTATIVE BODY.

Building and Loan to be Invited to Meet Here.

The directors of the Potters' Building and Loan have authorized Secretary J. J. Purinton to invite the state league of building association men to meet here next year, and the secretary will go to the meeting in Springfield next week with the glories of Liverpool on the end of his tongue. Should he be successful about 125 of the sharpest business men of Ohio will attend the session of the league here, and will advertise the city far and wide when they go home. Mr. Purinton hopes he will be successful.

A SIX ROUND BOUT.

A Small But Select Audience Saw the Fun.

The rooms of the Liverpool Athletic club in the Midway were crowded with a select party last night who witnessed six rounds of good fighting by two men whose names are not given out. The doors of the club were closed against the public, but a sufficient number of spectators were allowed admission to fill the room. It is said the fighting was at times almost fierce, and the crowd got full enjoyment from the event.

A TOUGH CROWD.

Tore Up the Town in Parts Last Night.

An unknown crowd of youngsters were in town last night, and amused themselves at the expense of business men. Boxes on Washington street were scattered around, and a barber's sign was knocked from its fastenings. On Sixth street they enjoyed the time by scattering everything they could find movable in the street. It was an exhibition of vandalism that should have been punished by arrest.

FROM UNDER THE FLAG.

But Doctor Sloan Is Enjoying It In Canada.

"We are out from under the American flag and it gives one a peculiar feeling to see anything but the stars and stripes" wrote patriotic Doctor Willis Sloan, of this city, who is touring Canada on a bicycle. The party have met with some rain, but find the roads so well made that they have been inconvenienced but little. They are having a good time, and find the people very hospitable and kind.

BISHOP VINCENT TO PRESIDE

At the Big Methodist Conference In Canton.

Methodist ministers in this section are already talking of the annual conference, which convenes in Canton on Sept. 18. Bishop Vincent, the chancellor of Chautauque, will be the presiding officer, and the attendance will be as large as ever.

AS TO AMALGAMATION

President Devlin, of Trenton, Will Speak Monday.

A MASS MEETING OF POTTERS

Will be Held in Red Men's Hall—Mr. Devlin Was Here Yesterday and Will Return to Talk About a Solid Union. Pottery Matters.

Monday night may see the most important move made toward the amalgamation of the operative potters in the United States.

President Devlin, of the Trenton Sanitary union was in the city yesterday, and conferred with President Hughes, of the Brotherhood. He left for a trip down the river, expecting to return Monday evening. Meanwhile he decided to address all union potters who care to attend a meeting to be held in Red Men's hall, and it will be on Monday evening if the present efforts are successful. The subject will be that of uniting the Brotherhood with the Trenton organization. President Devlin feels sure of the move meeting with success. The Trenton sanitary men and in fact all sanitary potters are working full time and are willing for amalgamation. The other lines of pottery are not so rushing, but the prospects are good.

Mr. Devlin will explain everything and it will be to the interest of every union potter to attend.

ORDERING NEW SEWERS.

The Board of Health Will Not Brook Delay.

All the members of the board of health were in their places when Mayor Gilbert rapped for order except Huston and Chambers, but it did not take long to get through the business.

Doctor Ogden and Clerk Groshans were not among those present. It was resolved to have sewer connections made at the Robinson and Cartwright properties on Seventh street, and the Nicholls house at Cook and Broadway. Sept. 6, was made the limit of time when those improvements were to be completed, and was also made the date when parties not liking the order can go before the board, and show good cause, if possible, why they object. On Sept. 7, J. L. Ainsley is asked to appear before the board, and tell why the health authorities should not clean about his property on Second street, and charge it to him. Officer King was paid \$50; the chemist who found what was in the Diamond well water got \$35, and \$3.50 was paid for burying dogs. The Riley brothers were present to protest against the order compelling them to sewer their property on Third street, and were allowed to talk. It developed that 13 families lived in the property, which has a frontage of 90 feet, and the board refused to rescind the order. The president and clerk were instructed to make a contract with W. H. Surles, paying him \$15 a month for the use of his float for dumping purposes, and a petition from the Pennsylvania company was considered. In conjunction with Mr. McCollough they wanted to lower the sewer from the old Davidson building to low water mark putting in iron pipe, but the board would not have it that way. It ordered a connection with the city sewer, and then went home.

A NICE PRESENT.

Mrs. Cooper Sends Thanks From Her Kansas Home.

EDITOR NEWS REVIEW—If you will allow me space, I desire through the columns of the NEWS REVIEW to express my thanks to my friends of the Second Presbyterian church, East End, for the beautiful present which the expressman has just delivered prepaid. To my surprise and delight the box contained over 100 pieces of the very best of china ware, scarcely two pieces being alike. Among the names is also found the name of Mrs. Johnson, of West End, with a valuable pitcher. The gift is prized for its great value and because it comes from the dear friends of East Liverpool.

Mrs. H. A. COOPER.

BOUGHT THE GROUND.

Hollow Rock Association Make a Purchase.

The people who form the Hollow Rock association have purchased the ground on which the cottages stand, and propose to make it a pleasant place. Five cottages have been built this season, all of them modern in convenience and presenting a very nice appearance. Doctor Sloan, of this city is among the builders.

—George James, of Irondale, was in town today calling on friends.

The Chinese like the missionaries very much, but they seem to like them better when they are dead.

What a pity President Cleveland can not conscientiously resign and appoint himself to the supreme bench.

EAST LIVERPOOLER got Sewickley one better in the jack-pot of progress—we are going to have a bridge and Sewickley isn't.

The Democratic fight in this county is interesting because there are no spoils for the victors unless they are working for their respective chiefs on salary.

The country correspondent who can't hear the noise of the thrasher in the land and fails to tell the dear public about it every time he writes is deaf as a post, and totally ignorant of a time honored custom.

The American potter is opposed to a low tariff because it takes away his employment, reduces his wages, and does its level best to put him on the same plane as that occupied by the potters of Germany, France and England.

If some kind and wealthy individual near the grave, desires to go down in history as a philanthropist he can attain that end by changing his will, making it give the city \$10,000, every cent of it being for the construction of a public park.

The Democrats in New York passed the Sunday laws for effect and the Republicans are enforcing them with effect. One party sought to gain favor by an act which they never meant to observe, and the other is doing its plain and honest duty like a little man.

IN THE FUTURE.

A Philadelphia paper, with that long headedness for which Philadelphians are noted, utters this prophesy and fact:

"The Democratic convention in Ohio is likely to be controlled by Senator Brice simply because no other Democrat is particularly anxious to take charge of an organization that is doomed to an overwhelming defeat. The nomination for governor is going a begging, and the chief interest in the convention will be in Brice's effort to keep the silverites in subjection and prevent them from adopting a free coinage platform. A Republican majority of 75,000 to 200,000 is more than probable in Ohio next November, as the McKinley and Foraker factions are now working together in harmony. Senator Brice's check book seems to be about the only incentive that the Democrats have for conducting a campaign at all." If there ever were factions in Ohio they are gone. The line has been rubbed out, and the whole party stands before the public as one inseparable body. McKinley will be president, Foraker will be senator, and Mr. Brice can hold his New York residency without fear of being disturbed.

DUN'S TRADE REVIEW.

Unusual Activity in Business For Midsummer.

FUTURE PROSPECTS VERY BRIGHT

Speculation More Successful in Cotton Than in Any Other Product—Settlement of Mining Controversies a Great Factor—Bessemer a Shade Weaker.

NEW YORK, Aug. 10.—R. G. Dun & Co., in their Weekly Review of Trade, say: Business continues usually active for midsummer, and although there are perceptible relaxations, there are no signs of reaction. The one change of great importance which the past week has brought is eminently helpful—the amicable settlement between coal miners and employees in Western Pennsylvania, Ohio and Indiana. It is said that about 100,000 men will have their wages increased after Oct. 1 by this adjustment, and while the enlargement of purchasing power is of consequence, it seems even more important that a chronic cause of controversy has been removed by the new agreement as to company stores. There is no important change in crop prospects, and at this time no news is eminently good news.

Speculation has been more successful in cotton than any other product during the past week, and has lifted the price an eighth. Wheat has declined a fraction with very scanty transactions, the extremely small western receipts influencing the market for the present more than the restricted exports. The concerted withholding of wheat by western farmers, if continued, would doubtless effect the price in the end, but it has already stopped Atlantic exports almost entirely, the amount, flour included, having been only 753,330 bushels for the past week against 2,986,340 bushels for the same week last year, and when foreign markets have supplied their needs from other quarters the western farmers may find reason to regret that they did not ship their wheat at the ordinary time. Corn tends to lower prices with more encouraging prospects, and the expectation of a heavy corn crop effects prices of provisions, as might be expected.

The industries continue to make progress, and higher prices for iron and steel products prove that the supply has not yet outrun the demand. Bessemer iron is a shade weaker, but grey forge has advanced about 60 cents, and finished products are remarkably firm. Lake copper has advanced to 12 cents. Tin declined about a quarter of a cent and is quoted at 14.20. Lead is a trifle stronger at 3.55. The anthracite coal market is completely demoralized, and prices have again yielded a little to about the lowest ever known.

Sales of wool are not as much inflated by speculation as they were during the first half of July, but they still considerably exceed the actual consumption in the manufacture, amounting at the three chief markets to 6,350,800 pounds. Prices are very firm. Some staple cotton goods have again advanced in price, but the market is unusually strong for the season.

Failures for the week were 225 in the United States, against 264 last year, and 43 in Canada against 54 last year.

MRS. BARNUM'S WEALTH.

She Sets an Example Which Other American Women Should Emulate.

NEW HAVEN, Conn., Aug. 10.—The fortune of the great showman, P. T. Barnum, will not go the Greek Dohitri Calai Bey, whom Mrs. Barnum has married. Just before the civil ceremony an ante-nuptial contract was signed in the New York office of Attorney George P. Ingersoll of this city. Ex Governor Ingersoll was present as Mrs. Barnum's personal counsel. The contract signed specifies that neither party shall have control over or claim on the fortune of the other.

Canadian Steamer Ashore.

VICTORIA, B. C., Aug. 10.—The Canadian Australian liner Warrimoo is ashore three miles northwest of Carmah Point on the British shore opposite Cape Flattery. She went on in a fog, and it is believed she may float at high tide. The steamer was just entering from Honolulu. Details are very meagre. The bow is adrift but the vessel is fast aground astern. The point is the same where the Duchess of Argyll was wrecked some years ago.

Serious Street Car Collision.

INDIANAPOLIS, Aug. 10.—Two heavily loaded electric trains on the Broad Ripple Suburban streetcar line collided at at least a dozen people were more or less injured. The accident was caused by a motorman's failure to throw a switch. One train was loaded with people coming from an old settler's picnic at Broad Ripple.

Will Open New Territory.

SAN FRANCISCO, Aug. 10.—The United States government is making preparations to open the Yuma Indian reservation. There are 41,000 acres in the strip, it is estimated that 10,000 acres will cover all that may be called good land.

Death in an Elevator.

NEW HAVEN, Aug. 10.—Frank W. Cayton, janitor of the First National Bank, was crushed to death in an elevator. His body was dragged between the elevator and the side of the wall from the sixth to the eighth floor.

The Pope Asks Protection in China.

LONDON, Aug. 10.—A dispatch from Berlin says it is stated there that the pope has written to Emperor William requesting him to take the Catholic missions in China under his protection.

A Railroad to Be Sold.

CHARLESTON, Aug. 10.—Judge Simonton has ordered the sale of the Port Royal and Western Carolina railroad Oct. 17. The road is 208 miles long.

Mascot Defeats Hal Pointer.

BUFFALO, Aug. 10.—Mascot took the race from Hal Pointer after five heats. Best time, 2:30.

THE DEFENDER AGROUND.

After Numerous Efforts She is Again Successfully Floated.

NEWPORT, R. I., Aug. 10.—The Defender went out for a spin and while returning to the harbor, ran aground hard and fast on the spit, which runs out from Goat island. The tide was on the ebb and after several trials, it became apparent that the sloop could not be freed before high tide, and she lay in an easy position where she struck bottom.

The tide was ebbing fast, and when, after futile attempts to free the sloop, it became apparent that the crew must wait for the next tide, they busied themselves in laying plans for floating their boat. These were put into effect, and when the tide was well on towards the flood, the men were sent out on the boom to try to "cast the sloop off." Their combined weight, so far aft, was what was needed, and the plan worked excellently, at 8:20 the Defender floated clear of the spit, and at once proceeded up the harbor to her anchorage. It is thought the sloop is uninjured, as she grounded easily and the tide did not leave her high enough to cause any strain. Her bottom will, however, be examined by a diver.

Illinois' Largest Crop of Corn.

SPRINGFIELD, Ill., Aug. 10.—Reports received by the state department of agriculture confirm the reports heard the past few weeks as to the condition of the growing corn crop, and the prospect now is for one of the largest and finest crops ever raised in the state. The season has been exceptionally favorable for the growth and cultivation of corn.

Cincinnati Relieves the Atlanta.

NEWPORT, R. I., Aug. 10.—The cruiser Cincinnati has been detached from the North Atlantic squadron and orders were given her to proceed to Key West, to relieve the cruiser Atlanta now stationed there. The Cincinnati will sail for Key West at once. The Atlanta will join the squadron here as soon as possible, after being relieved.

Found Dead in Bed.

NEW YORK, Aug. 10.—John Lynch, supposed to be a resident of Pittsburgh, was found dead in his lodgings, at 210 Second avenue. Letters show that he has a niece, Sister Marie Joannes, in St. Anthony's convent at Green Point and another relative, Mrs. James Dolan of 94 James street. Apoplexy is supposed to be the cause of death.

Justice Jackson's Funeral.

NASHVILLE, Aug. 10.—The hour for the funeral of Justice Jackson has been fixed at 10 o'clock Monday morning. It was at first intended to have the funeral Sunday, but a delay was determined upon in order to give Chief Justice Fuller and the other members of the supreme court time to reach here.

Pension Swindler Arrested.

ROCHESTER, N. Y., Aug. 10.—Deputy Sheriff Swain of Branch county has presented a requisition from Michigan for the arrest of W. W. Wilson, better known as "Slippery Jim," who is charged with pension swindling in Wayne county. The Michigan officers' papers charge Wilson with forgery.

Killed in Saving a Woman's Life.

SENECA FALLS, N. Y., Aug. 10.—In saving the life of a woman who was in front of a switch engine, Morgan Neget, a New York Central flagman, was struck and instantly killed. He leaves a wife and three children.

Uniting of Many Years.

GALLIPOLIS, O., Aug. 10.—Mrs. Kate Platt, aged 60, and three times widowed, was united in marriage to Captain Doc Johnson, a well known soldier, aged 70, who has been married twice.

Mrs. T. Dewitt Talmage's Will.

BROOKLYN, Aug. 10.—The will of Mrs. T. Dewitt Talmage has been filed for probate. She leaves \$160,000, of which \$30,000 in real and \$130,000 personal property. Her husband is the sole legatee.

Killed in a Mine.

DETROIT, Aug. 10.—An extensive fall of ground occurred at the Chapin mine in a room in which Charles Faust and John Johnson were working. Faust was instantly killed. Johnson escaped in a badly bruised condition.

The Weather.

Fair; slightly warmer in extreme northern portion; variable winds.

PITH OF THE NEWS

Treasurer Cheney of the Chamber of Commerce of Boston has been found short in his accounts to the extent of \$16,018.79. Fire in the town of Coatepec, Coahuila, state of Guerrero, Mexico, destroyed 60 houses, consuming everything the inhabitants possessed.

Nelson Morris will continue the fight against the whisky trust reorganization, and the case will be brought into court at Chicago again next week.

A boy baby was found in the yard of Benjamin F. Wilson of Crafton. The child was well dressed and was provided with a bundle of well made clothing.

The "cannon ball" express, southbound, and a northbound freight train collided head-on south of Plymouth, N. H. Engineer Stevens and Fireman Merrill were killed.

Lon Perry, an ex-member of the Cook gang, a noted desperado and a dangerous man, has been captured near Huntsville, Ark. He was arrested on the charge of horsestealing.

Jim Clarke, a Rio Grande railroad detective, who was shot and killed in the street at Telluride, Colo., by an unknown assassin, was formerly a desperate outlaw, and is believed to have killed more men than a score of men.

The body of a man supposed to be that of Andrew Rockefeller of Chicago has been found near the Lake Shore railroad tracks at Lakeview, near Buffalo, N. Y. The indications are that he fell off while stealing a ride and was run over by the freight train.

W. A. Gilbert, a former employee of the Pulaski Iron Company at Eekman, W. Va., who was shot by Coke Ross, Stroud Sunday evening, has died. Owens, who was shot also by Stroud, at same time, will not live. Both were leaders in the Flat Top strike.

Cuban leaders at Mexico City, Mexico, deny they are fitting out expeditions, and say they will respect the neutrality laws. They urge that the United States should recognize their compatriots in Cuba as belligerents, saying they now have a properly organized government on the island.

OFFICIALLY CONFIRMED

Are the Reports From China by Mission Organizations.

ASK PROTECTION FOR FOREIGNERS

The Missionaries Repeatedly Urged to Come Down From the Treacherous Interior—Naval Forces Would Be Little or No Avail in Their Behalf.

WASHINGTON, Aug. 10.—No official advice has reached the state department concerning the reported destruction of American mission property at Ingho, China. It is believed at the state department that the place referred to is identical with Sui-Hing, where troubles were reported two days ago, and this second dispatch really relates to the same incident.

Acting Secretary Adee has received a telegram from Nashville, signed jointly by the Southern Methodist and Presbyterian Missionary society officials, confirming the report of the outrageous character of the Ku-Cheng massacre and urging the state department to protect the American missions in China. Mr. Adee has responded by telegram that United States Minister Denby had already taken the most vigorous measures to secure the safety of Americans, and that renewed instructions to that end had already been issued to the minister.

It is not doubted that Mr. Denby is doing everything possible in these disturbed conditions, to care for the missionaries, but there are some things beyond his power to accomplish at this time. He has for many months or personally and through the American consuls in China urged the missionaries to come down from the dangerous interior posts to the treaty ports, representing to them that no matter how inclined he might be to do so, he could not dispatch ships overland or up shallow streams to protect them. Admiral Carpenter is also willing to do everything proper to co-operating with the minister, and if he believes it to be prudent, to send some of his sailors and marines overland through a hostile country, he is fully authorized by his instructions from the navy department to do so.

The state department expects to secure full and ample reparation and indemnity for all injuries sustained by Americans, and indeed Minister Denby has already made a most vigorous demand on the Chinese government to that effect.

A high official of the navy, commenting on the criticisms that have been made because American gunboats have not done so much to protect the missionaries in China, said that the situation is not understood by these critics. The places where the riots have occurred have many hundred miles of inland where it is impossible for ships to go. He also believed that it would be useless to attempt to send a force from the ships by land, and drew a comparison of a supposed riot in Utah, where British subjects were killed and said it would be as reasonable to expect British warships to reach Salt Lake or to send an armed force from New York to assist the United States to reach the riot points in China by gunboats or by a landing force.

"If it is to be the policy of the American government," he continued, "that every time an American citizen is killed or American property in the interior destroyed, that our war vessels should sail to a Chinese town on the sea coast, we might set our ships at work."

FURTHER VIOLENCE FEARED.

Grave Apprehensions That the Chinese Situation is Growing More Serious.

NEW YORK, Aug. 10.—Rev. A. B. Leonard, corresponding secretary of the Methodist board of foreign missions, fears further violence to Americans in China. Speaking of the cablegram received by him from the missionaries at Foo-Chow, appealing to him to arouse the authorities to the necessity for action, he said:

"I have wired the secretary of state at Washington urging him of the necessity to act promptly for the safety of our citizens in China, and asked to be advised of what steps would be taken. I have as yet received no reply."

"I understand that Mr. Olney is at Buzzard's Bay, at that Mr. Uhl, first assistant secretary of state, is in Europe. I do not know who is in charge of the department, or do I know what is being done in this grave situation."

"I do not like to criticize, but I do know that our missionaries are praying for the presence among them of the government's defensive strength, and they are not the kind of people to ask it if it is not badly needed. It is also certain that if our missionaries are in danger, so are all of the Americans and foreigners in China."

JAPANESE IMPUDENCE
May Compell Uncle Sam to Resort to Harsh Measures.

THEY BOARD AMERICAN VESSELS
In Quest of Chinese or Any Enemy, Notwithstanding the Protests of the United States Minister—Ordered to Fire Upon Our Escorting Naval Boats.

WASHINGTON, Aug. 10.—In the event of war between Russia and Japan the United States may find itself an unwilling party unless the Japanese retreat from a position which they assumed towards the United States during the progress of the last war with China. It is not generally known that just before the declaration of the armistice which preceded the signature of the treaty of peace an issue had grown up between the United States and Japan that threatened to lead to actual hostilities between the two countries, and that a hostile clash was perhaps only averted by the conclusion of the Chinese war. This issue arose through the assertion by the Japanese authorities of the right of search of American vessels.

The incident that they had the right to board an American vessel if they chose to take from her any Chinese or any enemy they might find, even though they were but passengers. Minister Dunn very promptly denied the existence of any such right on the part of a combatant, and hot correspondence ensued. The Japanese insisted on their right and even went so far as to threaten to send a Japanese merchant steamship out of a Japanese port to prevent her detention by the Japanese, the latter, it is said, gave orders to the shore batteries at the mouth of the harbor to fire upon the American naval vessels if they attempted to do so. This fact came out after the conclusion of the armistice, which fortunately occurred at just this period in the negotiation, thereby preventing an incident that would certainly have led to war, but the significant point is, that since that time the Japanese have steadily clung to the same contention, promising serious trouble in the event of another war in the east.

CRUSHED TO DEATH.
Foolish Frank of Boys Results in Killing a Young Farmer.
MANHEIM, Pa., Aug. 10.—Jacob N. Kreider, a well-known young farmer of Rapho township, met with a fatal runaway accident near here. He was engaged hauling stone with a four-horse team when several boys coming on behind attempted to drive ahead of the team. Mr. Kreider's team was frightened and the horses started to run. Mr. Kreider attempted to catch the lead horse, but fell and the wagon loaded with stone passed over his body, crushing him to death. He was three years ago married to Miss Katie Hostetter, a well-known young lady of Rapho township.

Tried in Vain to Kill Himself.
READING, Pa., Aug. 10.—Miss Beckie Shaler, who was arrested on the charge of keeping a disorderly house, was so depressed over the occurrence that she procured a bottle of laudanum and swallowed all of it. She was found shortly afterward violently sick, and owing to the large dose and strenuous efforts of the physicians who were summoned her life was saved. Miss Shaler has been employed as a cook in a hotel and she claims that she was not responsible for the occurrences in the house which caused the warrant to be issued.

Severely Shocked by Electricity.
WILLIAMSPORT, Pa., Aug. 10.—Howard Troxell, a telephone lineman, while engaged in stretching wires received an electric shock estimated at almost 1,000 volts. Through the promptness of a fellow workman the wire was drawn away. Troxell remained unconscious for half an hour. He was given a hypodermic injection of strychnine and cold water applications.

PUT-IN-BAY YACHT RACES.
Sultana Outclasses Her Opponents and Wins Easily.
PUT-IN-BAY, O., Aug. 10.—The free for all, Lakeside and return, sailing contest, was the best race of the week. The first boat across the line was the Josephine, followed by the Sultana, Neva, Michieff, Cynthia, Elfin, Brownie and Clytie. The wind was light from the west. After the yachts rounded Ballast island a breeze sprang up from the east and the run to the stakeboat was with started sheet.
The Sultana was far in the lead turning the stakeboat, being about ten minutes ahead of the Neva and Josephine. Michieff was next to the round, followed by the Cynthia, Pearl and Sprite. The rest of the yachts dropping out. The home run was closed by the Sultana, which showed her prowess by running away from everything, beating the Neva, her greatest rival, nearly 15 minutes. Dachtler's new Michieff showed up well, winning the third place, beating Cynthia and Josephine.

A Mysterious Death.
GEORGETOWN, O., Aug. 10.—Isaac Watson, a farmer living three miles west of this place, left his house, telling his wife that he intended strolling over the farm to look after his tenant's crops. Several of the members of the family insisted on accompanying him, but he said he preferred to go alone. He did not return at dark. Search was instituted for him, which resulted in finding his dead body lying upon the banks of one of his large fish ponds, a full half-mile from the house. No marks of violence or evidences of what caused his death were to be observed.

Shot In the Neck.
LOVELAND, O., Aug. 10.—John Kelley and Jim Lucas, both colored, became engaged in a quarrel over a board, and Kelley assaulted Lucas with a brick. Lucas picked up a hatchet and ran into Willis Gien's house. Kelley went away and returned with a shotgun, and fired. Part of the load took effect in Lucas' neck, making a dangerous wound. Kelley was locked up, and Lucas taken to a doctor's office to have his neck dressed.

A Sunday Law War.
SPRINGFIELD, O., Aug. 10.—As a result of the order closing the tobacco shops on Sunday, a meeting of 30 cigar men was held, at which a committee was appointed to cause the arrest of any one found performing manual labor on the Sabbath. The tobacco men insist that news stands, icecream, saloons, soda-water fountains, street cars, livery stables, etc., be prohibited from doing business on Sunday.

A Disastrous Fire.
IRONTON, O., Aug. 10.—The entire plant of the Fearon Lumber and Veneer company was destroyed by fire. The lumberyards escaped. Five dwellings were also consumed. The loss to the company will be \$30,000, with about \$14,000 insurance. The loss on dwellings is \$2,000, with about \$1,000 insurance.

After Justice Jackson's Seat.
CINCINNATI, Aug. 10.—A special from Frankfort says that Senator William Lindsay will be pressed for the supreme bench to succeed Justice Jackson, and that Secretary Carlisle would then be re-elected to the senate. In this city there is a movement for the appointment of Attorney General Harmon to the supreme bench.

THE MID-OCEAN DISASTER.
Survivors of the Prince Oscar Will Return Home.
PHILADELPHIA, Aug. 10.—The survivors of the Prince Oscar disaster will be sent home by Consul Clipper by the White Star Line steamer Tontonic, which sails for Liverpool next Wednesday. They will leave this city for New York on Tuesday. The depositions of Captains Sproule and Henderson were sent abroad yesterday. Captain Henderson gave a detailed statement of the catastrophe to the British consul, but the latter refused to make it public.
Concerning the identity of the vessel which ran down the Prince Oscar, Chief officer Bernard Lynch, who was on watch at the time, said that she was a four-masted vessel, square rigged, on her three masts, and fore and aft rigged on the mizzen. "She was coming toward us under all plain sail and was evidently bound north—it may have been to England or some port in the United States. She could not have been an Australian vessel, as they are mostly wool laden, and this one collapsed so suddenly as to make us believe she was laden with nitrate and bound round the horn from Chile."

FLOODED WITH SPURIOUS COIN.
Counterfeiters Unload Their Product in Wilmington, Del.
WILMINGTON, Del., Aug. 10.—This city is fairly flooded with counterfeit silver dollars. About ten days ago one was presented at the Farmers' bank by a depositor and detected. Since then the banks have been on the lookout and dozens have been detected and then turned down. They were presented by innocent depositors, who had accepted them in the course of business.
The spurious coins are thicker than the genuine dollars but of lighter weight. The composition of which they are made is soft and can be readily cut with a knife. From the number of these counterfeiters in circulation it is believed that the professional "shovers of the queer" have recently unloaded in this city.

Heavy Cloudburst in Colorado.
DENVER, Aug. 10.—A special from Del Norte, Colo., says: A heavy cloudburst in the hills east of Del Norte, Thursday, sent immense volumes of water down Pine creek and doing much damage to roads, bridges, growing crops, the Denver and Rio Grande railroad track and the property of the Del Norte Brevig company. The water flowed from the hills to the valley on the sides of the Del Norte east and west.

Lost His Arm but Saved His Life.
HAMBURG, Pa., Aug. 10.—Francis Morgan, a farmhand employed on Mrs. Rutter's farm, near Strasstown, had a narrow escape from death by having his arm caught in a threshing machine. The arm was so horribly crushed and lacerated that it was amputated several inches below the shoulder.

A Hopeless Deadlock.
JACKSON, Miss., Aug. 10.—When the Democratic state convention reassembled here the balloting for railroad commissioners was proceeded with. The convention is in what seems a hopeless deadlock on these nominations, 21 ballots having been taken without result.

Leaped to Her Death.
SCRANTON, Pa., Aug. 10.—Kittie Woods jumped from the fourth story of her home to escape a police officer who was seeking to arrest her for drawing a knife on the proprietor of the place, Amos Bishop. She is now in a dying condition at Lackawanna hospital.

Legislator Marshall Kills a Politician.
JACKSON, Mass., Aug. 10.—Hon. T. Deane Marshall of Vicksburg, a member of the state legislature and nominee for state senator, just shot and killed Mr. Dinkins, a politician. The shooting occurred at Brandon, 15 miles east of here.

What We Are Selling.
All our Summer Goods are still marked at the prices put on them during our sale of last week.
Lawn at 3c.
Challies at 2 1/2c.
Calicos at 3 1/2c.
A good line to select from.

Our Remnant Table
Still has some very cheap things on it, and you can find almost anything you may want on it in suitable lengths for children's clothing.
New Dress Goods.
We opened our first invoice of Fall Dress Goods yesterday. You must see them sure. The first plum is eight colorings in all wool Henriettas, 38 inches wide, at 39c per yard. These goods would be cheap at 50c per yard. Next is six shades in 45-in. all wool Heavy Storm Serge, at 50c per yard. Our 50-in. Coating Serge at 75c is worth looking at. Our 44 in. Embossed Mohairs at 60c will make you a very stylish gown.

Fancy Silks.
We are showing the new fall weaves—25 different styles just opened—in Boucle, Irresescent and Shot Effects, Changeable Striped Taffetas for fancy waists.

Are You Going Away?
Come to us for a Pique Suit before going. Remember we are selling our \$5.00 Suit for \$3.75. We are showing new styles in Wrappers and Tea Gowns at less than you can make them for. We are closing out all our shirt waists at half price. It will pay you to investigate.

The Crosser-Ogilvie Co.
A pair of drunks were walking on Fourth street the other night when one of them wondered what time it was. After a few minutes discussion they thought of the clock, but were so situated at that moment that they could not see it. One, however, chanced to see the moon coming up behind the tower, and turning to his companion with a look of disgust said: "Say, Bill, they've took the hands off the yard."

WILL CAMP AT NEWARK

**Soldier Boys are Jubilant Over
Good News.**

THEY GET FULL CAMP PAY

Colonel Gyger Could Not Arrange With
the Southern Railroads For a Rate to
Chattanooga, and the Scheme Was
Abandoned—The Date Not Set.

The soldiers are happy because they
know they will soon enjoy the pleas-
ures of camp life on the state grounds
near Newark.

Adjutant Gyger and Sergeant
Major Hoover were in the city last
evening for the purpose of examining
Lieutenant Finley, of Company E.
The examination did not require a
world of time, and the young officers,
who were the guests of Captain
Hobbs, had a few minutes in
which to tell what they knew
of the coming encampment.

The adjutant said it was a long story,
and Colonel Gyger had been working hard
to make the outfit of the regiment a
time of unalloyed pleasure this year.
He had endeavored to arrange with
the southern railroads, but they
wouldn't arrange worth a cent, and
the plan was abandoned. The first
move was to offer them a rate which
would leave enough of the appropria-
tion to give every man 34 cents a
day for living expenses in camp, but
they turned down the offer, and
shut off negotiations. The regiment
will therefore go into camp at the
state grounds near Newark, one of
the most beautiful spots in Ohio, and
only occupied to the present time by
one regiment. The Eighth can
have the week beginning Aug. 24 or
a week in September, but it is probable
that the first date will be chosen.

Each man will get full camp pay now
that it has been decided to keep the
money in the state and not give it to
the railroad companies, and there is
ample appropriation to give every man
a good week. The grounds are well
laid out, and the place has won the
kindest regard of all the men who
have been there.

Captain Supplee is urging that the
men go to camp in style, and to ad-
vertise the industry of the city as well
as provide the boys with a comfort
that will beat anything the state can
provide, thinks a china canteen is
the proper thing. The company have
several samples, and like them so
well that an effort will likely be
made to provide the company with the
convenience. The boys are en-
thusiastic over the prospect, and ex-
pect a good time.

Although Captain Supplee has sent
in his resignation as was stated yes-
terday there may yet intervene cir-
cumstances which will cause it to be
rescinded. Colonel Gyger and other of-
ficers of the regiment have a warm
place in their hearts for the captain.

BADLY SCALDED.

Fred Riley's Child Pulled Over Boiling
Water.

The little child of Fred Riley, East
End, was seriously burned today.
The youngster was playing about
the kitchen when it pulled over a ves-
sel filled with boiling water. The
child's back and breast were scalded
and its injuries may result seriously,
but it is hardly thought that they
will be fatal.

Not That Way.

Charles S. Tucker, who is involved
in a legal contest with Nelson Cornell,
writes the News Review that he did
not assault Cornell, but when Cornell
said those words to his wife she told
him her husband would make him
take them back, and was informed
that her husband "couldn't lick one side of him."
When Cornell came up West Market
street Tucker went out for the purpose
of making him apologize, and claims
that Cornell struck him. Then Tucker
knocked him down and that is all
there was to it.

Investigating a Tent.

The theft of the amateur show tent
is causing no end of trouble for some
people, and interesting developments
of an unusual character are antici-
pated. Inquiries have been made
which prompt the belief that there is
something wrong.

Looking Over the Ground.

C. P. Murphy and wife, of East Liver-
pool, drove to Salem yesterday
afternoon. Mr. Murphy is to be one
of the firm of Triem & Murphy and
will remove here about Sept. 1. They
returned to East Liverpool today.—

A Gentle Corrective
is what you need when your
liver becomes inactive. It's
what you get when you take
Dr. Pierce's Pleasant Pellets.
They're free from the violence
and the griping that comes
with the ordinary
pills. The best medical
authorities agree that in
regulating the bowels
mild methods are prefer-
able. For every de-
rangement of the liver,
stomach and bowels,
these tiny, sugar coated
pellets are most effective.
They go about their
work in an easy and
natural way, and their
good lasts. Once used,
they are always in fa-
vor. Being composed
of the choicest, con-
centrated vegetable ex-
tracts, they cost much
more than other pills
found in the market,
yet from forty to forty-
four are put up in each
sealed glass vial, as
sold through druggists, at the price of the
cheaper made pills.

"Pleasant Pellets" cure biliousness, sick
and bilious headache, dizziness, consti-
pation, or constipation, sour stomach, loss of
appetite, coated tongue, indigestion, or dys-
pepsia, windy belching, "heart-burn,"
pain and distress after eating, and kindred
derangements of the liver, stomach and
bowels. Put up in sealed glass vials, there-
fore always fresh and reliable. Whether
as a laxative, or in larger doses, as a gently
acting but searching cathartic, these little
"Pellets" are unequalled.

As a "dinner pill," to promote digestion,
take one each day after dinner. To relieve
the distress arising from over-eating, noth-
ing equals one of these little "Pellets."
They are tiny, sugar-coated, anti-bilious
granules. Any child readily takes them.

Accept no substitute that may be recom-
mended to be "just as good." It may be
better for the dealer, because of paying
him a better profit, but he is not the one
who needs help.

A free sample (4 to 7 doses) on trial, is
mailed to any address, post-paid, on receipt
of name and address on postal card.

NEWS OF THE WHEELMEN.

Riviera, the French rider, recently rode
623 miles in 24 hours.

John S. Johnson is the way the young
professional is said to write his name since
he left the amateur ranks.

I. B. Potter, the New York state chief
consul, is being boomed for president of
the League of American Wheelmen.

It is said that A. A. Zimmerman, the
professional rider, receives \$5,000 for com-
peting in the bicycle meets in Australia in
addition to a guarantee for every race in
which he rides, win or lose.

Willie Windle, the former well known
racer, is training on the Waltham track
and will go for all the class A records
shortly. Windle was at one time Zimmer-
man's most formidable rival.

Cyclist L. D. Cabanne is in very bad
shape, and it is doubtful if he will be able
to do any racing for some time to come.
Cabanne received a very bad fall at Asbury
Park in the first day's races and has not
recovered from the effects.

John S. Johnson was the first bicyclist
to ride the mile inside of two minutes in
the following different ways: The mile fly-
ing start, standing start, straightaway un-
paced, standing competition and flying
competition. The first performance was
done three years ago.

Allertons and Axtells Not Pleased.

"Do you ever expect to raise another Al-
lerton or an Axtell?" Chicago Tribune
reporter recently asked C. W. Williams.
"I hope to, but can't say that I expect
to do so. The more experience I have in
breeding the more certain I am that Al-
lertons and Axtells do not grow on every
bush. I have some young things that I
think well of, but I shall not be discour-
aged if they are not record breakers. You
know there never has been a 3-year-old as
fast as Axtell or a 5-year-old Allerton's
equal, and that being the case, I have done
very well even if I should produce no more
like them."

"Will another trotter sell for \$100,000
within 20 years?"
"I don't know. The fact is only two
trotters have ever been sold for that
amount. Senator Stanford sold Arion for
\$125,000, and I sold Axtell for \$105,000.
They were sold during prosperous times
and when money was plenty, but as we
will surely have as good times again it
may be that some colt or horse having phre-
nomental speed will sell for as much or
even more than that paid for Arion or Ax-
tell."

A MILLIONAIRE RACING CYCLIST.

**George Ruppert Rides For Glory and Has
Done a Mile Under Two Minutes.**

Young George Ruppert, the son of New
York's millionaire brewer, Jacob Rup-
pert, is probably a simon pure amateur.
Most cyclists pose as amateurs, but ride
for the money indirectly, but Ruppert has all
the money he cares for and only races for
glory. This year, in the early spring, he
was filled with the desire to emulate the
examples of Zimmerman, Sanger and
Johnson, and, with that object in view,

GEORGE E. RUPPERT.

secured the services of Trainer Billy Young,
who so successfully handled Fred Titus
last year, and went to Savannah last
spring to fit himself for the task. That his
man had speed and plenty of it Young soon
found.

After getting into condition and able to
ride miles in 2 minutes 15 seconds, Ruppert
went north and entered the Intercollegiate
races, where he displayed speed, but was
invariably outgeneraled. From then
through several competitions it was the
same story, until the national meet of the
L. A. W. at Asbury Park, when Ruppert
was beaten in every race and in slow time,
which made the wise ones shake their
heads and accuse him of having no heart.

Realizing that something must be done or
his charge would become disgusted, Young
determined to have him try for a record
paced. Ruppert outrode his pacemakers
and was very much surprised when told
that the mile was ridden in 2 minutes 5 3/5
seconds. This so satisfied Ruppert that he
determined to close up his racing year with
a grand coup, so he invited a few friends
down to Manhattan Beach track to wit-
ness his trial against the New York state
record of 2 minutes 2 seconds, held by C.
M. Murphy.

He rode a truly great mile, and his time
of 1 minute 55 2/5 seconds is not only the
New York state record, but is next to the
swiftest class A mile ever ridden, the fast-
est being A. W. Porter's famous 1 minute
52 3/5 seconds at Waltham, Mass.

The time satisfied Ruppert, and he de-
termined to ride no more this year. Ruppert
will attend Columbia college next fall,
but promises to ride again next year if his
time is beaten. He has no desire to race
for prizes, and in future will merely en-
deavor to hold the class A records. Per-
sonally he is a modest, retiring young fel-
low with a slight hesitation in his speech,
handsome and well liked by his friends for
his open handedness, and no opponent can
say that he ever took an unfair advantage
in a race.

HORSES AND HORSEMEN.

It is reported that an offer of \$25,000 has
been made for William Penn, 2:11 1/4.

Lucky Baldwin has offered P. J. Dwyer
\$75,000 for Handspring, but Dwyer says
he will not sell the colt at any price.

Byron McClelland recently bought a
picture of Henry of Navarre for \$200 and
made Soup Perkins, his jockey, a present of
it.

Allerton and Axtell were foaled but six
days apart. Allerton was the elder, but
Axtell was the first to achieve national
fame, and was sold for \$105,000.

Rubinstein, the great Ohio pacing sta-
tion by Baron Wilkes, starts out the season
with remarkable performances that stamp
him one of the best of the free for all can-
didates.

That Azote escaped a life of ignoble ob-
scure was almost an accident. He was
bred and owned at famous Palo Alto, but
in his younger days was so little thought
of that he was put to the drudgery of work
on the farm.
